

	Kevie	
1	1 Identification	
	Product identifier Product name: <b>N-Boc-D-aspartic acid</b>	
	Stock number: H62820	
	CAS Number: 62396-48-9 Relevant identified uses of the substance or mixture and uses advised against	
	Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
	Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar	
	Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street	
	Ward Hill, MA 01835-8099 Tel: 800-343-0660	
	Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com	
	Information Department: Health, Safety and Environmental Department Emergency telephone number:	
	During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-	0789.
2	2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	
	The substance is not classified according to the Globally Harmonized System (GHS). Hazards not otherwise classified No information known.	
	Label elements GHS label elements Not applicable	
	Hazard pictograms Not applicable Signal word Not applicable	
	Hazard statements Not applicable WHMIS classification Not controlled	
	Classification system HMIS ratings (scale 0-4) (User and the state of	
	(Hazardouš Materials Identification System)	
	FRE I   REACTIVITY1 Physical Hazard = 1	
	Other hazards Results of PBT and vPvB assessment	
	PBT: Not applicable. vPvB: Not applicable.	
3	3 Composition/information on ingredients	
3	Chemical characterization: Substances CAS# Description:	
	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid	
	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures	
	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm.	
	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact	
	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects. both acute and delayed No further relevant information available.	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply firsh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After skin contact Immediate medical advice. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Sectinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx)	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid <b>4 First-aid measures</b> Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin contact Immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After skin down and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. Serie-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear stilly protective impervious suit.	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid First-aid measures Description of first aid measures After rinhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediate medical advice. After skin motiates medical advice. After skindlowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. So Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is in volved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 5 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adeuate veniliation	
4	Chemical characterization: Substances CAS# Description: 62396-48-9 N-Boc-D-aspartic acid 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After secontact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxide and carbon dioxide Nitrogen oxides (NOX) Advice for intelighters. Protective equipment: Wear sel-contained respirator. Wear relive on the substance or procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions; Do not allow product to reach sewage system or any water course. Methods and material for contailment and cleaning up: Pick up mechanically.	
4	Chemical characterization: Substances CASH Description: Cased Description: Cased Description of first aid measures Description of first aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After synalowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon moxide and carbon dioxide Nitrogen oxides (NOX) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear roll-contained respirator. Wear protective impervious suit. 3 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective impervious suit. 3 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adquate venitiation Environmental precautions: Do not allow product to reach sewage system or any water course. Wear of not and meterial for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required. Reference to other secondary hazards: No special measures required. Reference to other secondary hazards: No special measures required.	
4	Chemical characterization: Substances CAS# Description: CaS96-4R9-N=Boc-D-espartic acid First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After exination contact immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After exination contact Seek immediate medical advice. After exist contact Seek immediate medical advice. Seek immediate medical advice. After exist contact Cines opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor: Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or makture If this product is involved in a fire, the following can be released: Carbon moxide and carbon dioxide. Wargen oxides (NOX) Advice for firefighters Protective equipment: Wear rolly protective impervious suit. 5 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep purportected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required.	(Contd. on page 2)

## Product name: N-Boc-D-aspartic acid

See Section 13 for disposal information.

7 Handling and storage Handling Precautions for safe handling					
Keep container tightly sealed. Store in cool, dry place in tightly closed	containers. explosions and fires: No information known.				
Conditions for safe storage, including	g any incompatibilities				
Information about storage in one con Further information about storage co Keep container tightly sealed.					
Store in cool, dry conditions in well seal Specific end use(s) No further relevant	ed containers. t information available.				
8 Exposure controls/personal prot	ection				
Additional information about design					
Control parameters Components with limit values that re	quire menitoring at the workplace.				
The product does not contain any releva Additional information: No data	ant quantities of materials with critical values that have to be monitored at the workplace.				
Exposure controls Personal protective equipment General protective and hygienic mea	surge				
The usual precautionary measures for h Keep away from foodstuffs, beverages	andling chemicals should be followed.				
Remove all soiled and contaminated clo Wash hands before breaks and at the e	othing immediately.				
Maintain an ergonomically appropriate v	working environment. spirator when high concentrations are present.				
Protection of hands: Impervious gloves					
Check protective gloves prior to each us The selection of suitable gloves not only	se for their proper condition. y depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.				
Penetration time of glove material (in Eye protection: Safety glasses	minutes) Not determined				
Body protection: Protective work cloth	ing.				
9 Physical and chemical properties	5				
Information on basic physical and chemical properties General Information Appearance:					
Form: Odor:	Solid Not determined				
Ödor threshold:	Not determined.				
pH-value: Change in condition	Not applicable.				
Melting point/Melting range: Boiling point/Boiling range:	Not determined Not determined				
Sublimation temperature / start: Flammability (solid, gaseous)	Not determined Not determined.				
lanition temperature:	Not determined				
Decomposition temperature: Auto igniting:	Not determined Not determined.				
Danger of explosion: Explosion limits:	Not determined.				
Lower: Upper:	Not determined Not determined				
Vapor pressure: Density:	Not applicable. Not determined				
Relative density	Not determined.				
Vapor density Evaporation rate	Not applicable. Not applicable.				
Solubility in / Miscibility with Water:	Not determined				
Partition coefficient (n-octanol/water) Viscosity:					
dynamic: kinematic:	Not applicable. Not applicable.				
Other information	No further relevant information available.				
10 Stability and reactivity					
<b>Reactivity</b> No information known.	mended storage conditions				
Thermal decomposition / conditions	Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.				
Conditions to avoid No further relevan	Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available.				
Incompatible materials: Oxidizing age Hazardous decomposition products:	115				
Carbon monoxide and carbon dioxide Nitrogen oxides					
-

11 Toxicological information		
Information on toxicological effects Acute toxicity: No effects known. LD/LC50 values that are relevant for classificati Skin irritation or corrosion: May cause irritation Eye irritation or corrosion: May cause irritation Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcino Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated Specific target organ system toxicity - single ex Aspiration hazard: No effects known.	genic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Subacute to chronic toxicity: No effects known.	t of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information Toxicity Aquatic toxicity: No further relevant information a Persistence and degradability No further relevant Bioaccumulative potential No further relevant information avail Mobility in soil No further relevant information avail Additional ecological information: General notes: Do not allow undiluted product or large quantities to	t information available.	
Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information of the second seco	tion available.	
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national Uncleaned packagings: Recommendation: Disposal must be made accord
