

Safety Data Sheet per OSHA HazCom 2012

Product name: Bis(3-fluorophenyl) disulfide

(Contd. of page 1)

5 Fire-fighting measures

Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) Sultur ovides (SOV)

Advice for firefighters Protective equipment: Wear self-contained respirator.

Wear fully protective impervious suit.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation

- Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Prevention of secondary hazards: No special measures required.

Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

Handling Precautions for safe handling

Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace.

Information about protection against explosions and fires: No information known.

Conditions for safe storage, including any incompatibilities

Storage

Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions:

Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.

Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data

Exposure controls

Personal protective equipment General protective and hygienic measures

Ceneral protective and nyglenic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eves and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious cloves

Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing.

9 Physical and chemical properties

Information on basic physical and ch General Information Appearance:	nemical properties
Form: Color: Odor:	Liquid Yellow Unpleasant
Odor threshold:	Not determined.
pH-value:	Not determined.
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	Not determined 308 °C (586 °F) Not determined
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	> 110 °C (> 230 °F) Not determined. Not determined Not determined Not determined.
Danger of explosion:	Product does not present an explosion hazard.

(Contd. on page 3)

Product name: Bis(3-fluorophenyl) disulfide

Product name: Bis(3-fluorophenyl)	disulfide	
		(Contd. of page 2)
Explosion limits: Lower:	Not determined	
Upper:	Not determined	
Vaṗór pressure: Density at 20 °C (68 °F):	Not determined	
Relative density	1.27 g/cm³ (10.598 lbs/gal) Not determined.	
Vapor density	Not determined.	
Evaporation rate Solubility in / Miscibility with	Not determined.	
Water:	Not miscible or difficult to mix	
Partition coefficient (n-octanol/water		
Viscosity: dynamic:	Not determined.	
kinematic:	Not determined.	
Other information	No further relevant information available.	
10 Stability and reactivity		
Reactivity No information known.		
Chemical stability Stable under recom	nmended storage conditions. • to be avoided: Decomposition will not occur if used and stored according to specifications.	
Possibility of hazardous reactions No	lo dangerous reactions known	
Conditions to avoid No further relevar	nt information available.	
Incompatible materials: Oxidizing age Hazardous decomposition products:	ents	
Carbon monoxide and carbon dioxide		
Hydrogen fluoride Sulfur oxides (SOx)		
11 Toxicological information		
Information on toxicological effects Acute toxicity: No effects known.		
LD/LC50 values that are relevant for		
Skin irritation or corrosion: Causes s	skin irritation	
Eye irritation or corrosion: Causes se Sensitization: No sensitizing effects kr	nown	
Germ cell mutagenicity: No effects kr	nown. nown. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Carcinogenicity: No classification data Reproductive toxicity: No effects know	a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Specific target organ system toxicity	y - repeated exposure: No effects known.	
Specific target organ system toxicity Aspiration hazard: No effects known.	/ - single exposure: No effects known.	
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effect	ucto known	
Additional toxicological information:	: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity Aquatic toxicity: No further relevant in	nformation available	
Aquatic toxicity: No further relevant in Persistence and degradability No furt	ther relevant information available.	
Bioaccumulative potential No further Mobility in soil No further relevant info	relevant information available.	
Additional ecological information:	imalion available.	
General notes:	d and the second s	
Do not allow material to be released to Avoid transfer into the environment.	the environment without proper governmental permits.	
Results of PBT and vPvB assessmen	nt	
PBT: Not applicable.		
vPvB: Not applicable. Other adverse effects No further relev	vant information available.	
13 Disposal considerations		
Waste treatment methods		
	or national regulations to ensure proper disposal.	
Uncleaned packagings: Recommendation: Disposal must be n	nade according to official regulations.	
14 Transport information		
Not a hazardous material for transporta	ition.	
UN-Number		
DOT, IMDG, IATA UN proper shipping name	None	
DOT, IMDG, IÁTA Č	None	
Transport hazard class(es)		
DOT, ADR, IMDG, IATA Class	None	
Packing group DOT, IMDG, IATA	None	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
· · ·	x II of MARPOL73/78 and the IBC Code Not applicable.	
Transport/Additional information:	Not dangerous according to the above specifications.
