(Contd. of page 1)

Product name: Ammonium nitrate, Puratronic®

Concentration: ≤100% Identification number(s): EC number: 229-347-8

4 First-aid measures

Description of first aid measures After inhalation

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.

After skin contact Immediately wash with water and soap and rinse thoroughly.

After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor

Most important symptoms and effects, both acute and delayed Causes skin irritation.

Causes serious eye irritation. May cause respiratory irritation.

Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

Extinguishing media

Extinguishing media Suitable extinguishing agents Product is not flammable. Use fire-fighting measures that suit the surrounding fire. For safety reasons unsuitable extinguishing agents Halocarbon extinguisher Special hazards arising from the substance or mixture This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition. If this product is involved in a fire, the following can be released: Nitrogen oxides (NOx) Ammonia Ammonia Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away Ensure adequate ventilation Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: Acts as an oxidizing agent on organic materials such as wood, paper and fats Keep away from combustible material. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Substance/product can reduce the ignition temperature of flammable substances. This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition. Conditions for safe storage, including any incompatibilities Storage Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from flammable substances. Store away from reducing agents. Do not store with organic materials. Store away from metal powders. Do not store together with acids. Europer information about storage conditions: Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters

Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data

Exposure controls

Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present.

Product name: Ammonium nitrate, F	Puratronic®	
	(Contd. of page 2)	
Protection of hands: Impervious gloves	<i>term use:</i> r P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air- nly use equipment tested and approved under appropriate government standards. re for their proper condition. ' depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. minutes) 480	
9 Physical and chemical properties		
Information on basic physical and che General Information Appearance:	emical properties	
Form: Odor: Odor threshold:	Various forms (powder/flake/crystalline/beads, etc.) Odorless Not determined.	
pH-value (50 g/l) at 20 °C (68 °F):	4.5-6.0	
Change is condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	170 °C (338 °F) 210 °C (410 °F) (dec) Not determined Contact with combustible material may cause fire. Not determined Not determined Not determined Not determined.	
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water at 20 °C (68 °F): Partition coefficient (n-octanol/water): Viscosity: dynamic: kinematic:	Not applicable.	
Kinematic: Other information	Not applicable. No further relevant information available.	
10 Stability and reactivity Reactivity May intensify fire; oxidizer. May cause fire or explosion; strong oxidizer. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with reducing agents Reacts with reducing agents Reacts with fammable substances Conditions to avoid No further relevant information available. Incompatible materials: Acids Flammable substances Reducing agents Reducing agents Metal powders Metal powders Hazardous decomposition products: Nitrogen oxides Armonia		
11 Toxicological information Information on toxicological effects Acute toxicity: The Registry of Toxic Fi	ffects of Chemical Substances (RTECS) contains acute toxicity data for this substance.	
LD/LC50 values that are relevant for c	lassification:	
Oral LD50 2217 mg/kg (rat)	in initation	

Oral | LD50 | 2217 mg/kg (rat) Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes serious eye irritation. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No lassification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - repeated exposure: May cause respiratory irritation. Aspiration hazard: No effects known. Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains multiple dose toxicity data for this substance. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

Carcinogenic categories OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

12 Ecological information	
Toxicity	
Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available.	
Bioaccumulative potential No further relevant information available.	
Mobility in soil No further relevant information available.	
Additional ecological information: General notes:	
Do not allow undiluted product or large quantities to reach ground water, wate	r course or sewage system.
Avoid transfer into the environment. Results of PBT and vPvB assessment	
PBI: Not applicable.	
vPvB: Not applicable. Other adverse effects No further relevant information available.	
13 Disposal considerations	
Waste treatment methods Recommendation Consult state, local or national regulations to ensure prope	er disposal.
Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.	
Recommendation. Disposal must be made according to onicial regulations.	
14 Transport information	
UN-Number DOT. IMDG. IATA	UN1942
UN proper shipping name	UN 1942
DOT	Ammonium nitrate
ADR IMDG, IATA	1942 Ammonium nitrate AMMONIUM NITRATE
Transport hazard class(es)	
DOT	
~	
Class Label	5.1 Oxidising substances. 5.1
ADR	0.1
Class	5.1 (O2) Oxidizing substances 5.1
Label IMDG, IATA	5.1
Class Label	5.1 Oxidising substances. 5.1
Packing group DOT, ADR, IMDG, IATA	
Environmental hazards:	Not applicable.
Special precautions for user EMS Number:	Warning: Oxidizing substances F-H,S-Q
Segregation groups	Ammonium compounds
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Co	de Not applicable.
Transport/Additional information:	
DOT Marine Pollutant (DOT):	A1_
UN "Model Regulation":	No UN1942, Ammonium nitrate, 5.1, III
	UN 1842, Animonium mulaic, 3.1, m
15 Regulatory information	
Safety, health and environmental regulations/legislation specific for the	substance or mixture
GHS label elements The product is classified and labeled in accordance with	29 CFR 1910 (OSHA HCS)
Hazard pictograms	
GHS03 GHS07	
Signal word Danger	
Hazard statements H271 May cause fire or explosion; strong oxidizer.	
H315 Causes skin irritation.	

 Hazard statements

 H271 May cause fire or explosion; strong oxidizer.

 H315 Causes skin irritation.

 H319 Causes serious eye irritation.

 H335 May cause respiratory irritation.

 H3235 May cause respiratory irritation.

 Precautionary statements

 P221
 Take any precaution to avoid mixing with combustibles.

 P283
 Wear fire/flame resistant/retardant clothing.

 P210
 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

 P220
 Keep/Store away from clothing/combustible materials.

 P261
 Avoid breathing dust/fume/gas/mist/vapours/spray.

 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

 USA

Product name: Ammonium nitrate, Puratronic®

(Contd. of p P306+P360 IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes. P371+P380+P375 In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.	oage 4)
P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.	
National regulations All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory. All components of this product are listed on the Canadian Domestic Substances List (DSL). SARA Section 313 (specific toxic chemical listings) Substance is not listed. California Proposition 65	
Prop 65 - Chemicals known to cause cancer Substance is not listed. Prop 65 - Developmental toxicity Substance is not listed. Prop 65 - Developmental toxicity, female Substance is not listed. Prop 65 - Developmental toxicity. male Substance is not listed.	
Information about limitation of use: For use only by technically qualified individuals. Other regulations, limitations and prohibitive regulations Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006. Substance is not listed. The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing or	n the
<i>market and use must be observed.</i> Substance is not listed. Annex XIV of the REACH Regulations (requiring Authorisation for use) Substance is not listed. Chemical safety assessment: A Chemical Safety Assessment has not been carried out.	
16 Other information Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of the information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product no conformance with this Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.	is it in
