

### Safety Data Sheet per OSHA HazCom 2012

(Contd. on page 2)

#### Safety Data Sheet per OSHA HazCom 2012

## Product name: Diethyl fluoromalonate (Contd. of page 1) Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Or how monovide and each and the product of the following can be released: Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) Advice for firefighters **Protective equipment:** Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures **Personal precautions, protective equipment and emergency procedures** Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Store away from strong bases. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves The selection of suitable gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Eye protection:** Tightly sealed goggles Full face protection Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Liquid

# Safety Data Sheet per OSHA HazCom 2012

### Product name: Diethyl fluoromalonate

	(Con	td. of page 2)	
Color:	Colorless		
Odor:	Not determined		
Odor threshold:	Not determined.		
pH-value:	Not determined.		
Change in condition			
Melting point/Melting range:	Not determined		
Boiling point/Boiling range:	121-122 °C (250-252 °F) (30mm Hg)		
Sublimation temperature / start:	Not determined		
Flash point:	62 °C (144 °F)		
Flammability (solid, gaseous)	Not dèterminéd.		
Ignition temperature:	Not determined		
Decomposition temperature:	Not determined		
Auto igniting:	Not determined.		
Danger of explosion:	Product does not present an explosion hazard.		
Explosion limits:			
Lower:	Not determined		
Upper:	Not determined		
Vapor pressure:	Not determined		
Density at 20 °C (68 °F):	1.129 g/cm³ (9.422 lbs/gal) Not determined.		
Relative density			
Vapor density	Not determined.		
Evaporation rate	Not determined.		
Solubility in / Miscibility with			
Water:	Not miscible or difficult to mix		
Partition coefficient (n-octanol/water):	Not determined.		
Viscosity:			
dynamic:	Not determined.		
kinematic:	Not determined.		
Other information	No further relevant information available.		
10 Stability and reactivity			
Reactivity No information known.			
Chemical stability Stable under recommended storage conditions.			
<b>Chemical stability</b> Stable under recommended storage conditions.			

Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications.

Conditions to avoid No further relevant information available. Incompatible materials:

Oxidizing agents Bases

Hazardous decomposition products: Carbon monoxide and carbon dioxide Hydrogen fluoride

### 11 Toxicological information

Information on toxicological effects Acute toxicity: Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach. LD/LC50 values that are relevant for classification: No data LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes serious eye damage. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) reports the following effects in laboratory animals: Behavioral - convulsions or effect on seizure threshold. Nutritional and Gross Metabolic - body temperature decrease. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. 12 Ecological information

# Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Avoid transfer into the environment. **Results of PBT and vPvB assessment PBT**: Not applicable. **vPvB**: Not applicable. **Other adverse effects** No further relevant information available.

13 Disposal considerations

### Waste treatment methods

Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.

14 Transport information		
UN-Number DOT, IMDG, IATA	UN1760	
UN proper shipping name	Ormanius linuida e a (Diettad fluenematica etc.)	
DOT INTERNIT	Corrosive liquids, n.o.s. (Diethyl fluoromalonate) CORROSIVE LIQUID, N.O.S. (Diethyl fluoromalonate)	
Transport hazard class(es)		
DOT		
CONCOMP.		
Class	8 Corrosive substances.	
Label Class	8 8 (C9) Corrosive substances	
Label	8	
IMDG, IATA		
(I DA)		
Class Label	8 Corrosive substances. 8	
Packing group DOT, IMDG, IATA	11	
Environmental hazards:	Not applicable.	
Special precautions for user	Warning: Corrosive substances	
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.		
Transport/Additional information:		
DOT Marine Pollutant (DOT):	No	
UN "Model Regulation":	UN1760, Corrosive liquids, n.o.s. (Diethyl fluoromalonate), 8, II	
15 Regulatory information         Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements. The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms <i>with</i> GHS05             GHS1abel elements. Hazard statements Hazard statements H227 Combustible liquid. H314 Causes severe skin burns and eye damage. Precautionary statements P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P209 P304+P301+P333 IF IN EYES. Rinke cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P301+P333 IF IN EYES. Rinke cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P301+P333 IF IN EYES. Rinke cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P301+P333 IF IN EYES. Rinke cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P409 Stop to loked up. This product is not listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical Substance Inventory. Use of this product use to bused by or directly under the supervision of a technically qualified individual as defined by TSCA. This product must not be used for commercial purposes or in formulations for commercial purposes. SARA Section 313 (specific toxic chemical listings) Substance is not listed. Prop 65 - Developmental toxicity, Substance is not listed. Prop 6
