

#### Safety Data Sheet per OSHA HazCom 2012

# Product name: 4-Chloro-2,6-difluoroaniline

After akin contact		(Contd. of page 1)
After skin contact Immediately wash with water and soap a	and rinse thoroughly.	
Seek immédiate medical advice. After eye contact Rinse opened eye for	or several minutes under running water. Then consult a doctor.	
After swallowing Seek medical treatme Information for doctor	ent.	
	r <b>ts, both acute and delayed</b> Methemoglobinemia I <b>attention and special treatment needed</b> No further relevant information available.	
		!
5 Fire-fighting measures		
Extinguishing media Suitable extinguishing agents Carbon	n dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.	
If this broduct is involved in a fire, the fo	stance or mixture ollowing can be released:	<b>/</b> /
Carbon monoxide and carbon dioxide		<b>/</b> /
Nitrogen oxides (NOx) Possibly Hydrogen cyanide (HCN) Hydrogen chloride (HCl)		<b>/</b> /
Hydrogen fluoride (HCl) Hydrogen fluoride (HF) Advice for firefighters		<b>! !</b>
Protective equipment:		
Wear self-contained respirator. Wear fully protective impervious suit.		
		i /
6 Accidental release measures Personal precautions, protective equi	uinment and emergency procedures	
Wear protective equipment Keep uppro	reflected persons away	<b>! !</b>
Ensure adequate ventilation Environmental precautions: Do not al	allow material to be released to the environment without proper governmental permits. <b>Int and cleaning up:</b> raste according to section 13.	<b>! !</b>
Dispose of contaminated material as wa	it and cleaning up: aste according to section 13.	
Ensure adequate ventilation. Prevention of secondary hazards: No	o special measures required.	
Reference to other sections		
See Section 7 for information on safe has See Section 8 for information on person See Section 13 for disposal information.	ial protection equipment.	<b>/</b>
•	·	; /
7 Handling and storage Handling		
Precautions for safe handling		
Keep container tightly sealed. Store in cool, dry place in tightly closed Ensure good ventilation at the workplace	l containers.	
Ensure good ventilation at the workplace Information about protection against	ce. <b>t explosions and fires:</b> No information known.	
Conditions for safe storage, including		<b>/</b>
Storage Requirements to be met by storeroon	ms and receptacles: No special requirements.	
Further information about storage co	mmon storage facility: Store away from oxidizing agents. onditions:	
Keep container tightly sealed. Store in cool, dry conditions in well sealed	iled containers.	
Specific end use(s) No further relevant	t information available.	!
8 Exposure controls/personal prote		
Additional information about design of Properly operating chemical fume hood	of technical systems: I designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters		
Components with limit values that red Additional information: No data	equire monitoring at the workplace: Not required.	
Exposure controls		
Personal protective equipment General protective and hygienic meas	isures	
The usual precautionary measures for h Keep away from foodstuffs, beverages a	andling chemicals should be followed. and feed.	
Keep away from foodstuffs, beverages a Remove all soiled and contaminated clo Wash hands before breaks and at the el	othing immediately. and of work.	
Avoid contact with the eves and skin.		
Breathing equipment: Use suitable res Protection of hands:	working environment. spirator when high concentrations are present.	
Impervious gloves	iss for their proper condition	
The selection of suitable gloves not only Penetration time of glove material (in	ise for their proper condition. ly depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.	
Eve protection: Safety glasses Body protection: Protective work clothi	, minutes) Noi determined	
9 Physical and chemical properties		
Information on basic physical and ch General Information	iemical properties	
Appearance: Form:	Solid	
Color: Odor:	Light brown Characteristic	
Odor threshold:	Not determined.	
pH-value:	Not applicable.	(Contd. on page 3)

# Product name: 4-Chloro-2,6-difluoroaniline

		(Contd.	of	page	2)
--	--	---------	----	------	----

		(Contd. of page 2)
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	47-50 °C (117-122 °F) Not determined Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not applicable Not determined. Not determined Not determined Not determined.	
Danger of explosion: Explosion limits: Lower:	Product does not present an explosion hazard. Not determined	
Upper: Vapor pressure: Density: Relative density Vapor density Evaporation rate	Not determined Not applicable. Not determined Not determined. Not applicable. Not applicable.	
Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water) Viscosity:	Insoluble Not determined.	
dynamic: kinematic: Other information	Not applicable. Not applicable. No further relevant information available.	
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recomm Thermal decomposition / conditions to Possibility of hazardous reactions No Conditions to avoid No further relevan Incompatible materials: Oxidizing agen Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides Hydrogen chloride (HCI) Hydrogen fluoride Possibly Hydrogen cyanide (HCN)	t information available.	
11 Toxicological information Information on toxicological effects Acute toxicity: Harmful if inhaled. Harmful if swallowed. Toxic in contact with skin. Danger through skin absorption. LD/LC50 values that are relevant for of Skin irritation or corrosion: Causes sk Eye irritation or corrosion: Causes se Sensitization: No sensitizing effects kno Germ cell mutagenicity: No effects kno Carcinogenicity: No classification data	in irritation. rious eve irritation	

Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or AUGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Subacute to chronic toxicity: Multiple and to the formation of methemoglobin, producing cyanosis, and marked fall in blood pressure leading to collapse, coma and possibly death. Onset may be delayed 2-4 hours or longer. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

### 12 Ecological information

 Coroligical information

 Toxicity

 Aquatic toxicity: No further relevant information available.

 Persistence and degradability No further relevant information available.

 Bioaccumulative potential No further relevant information available.

 Mobility in soil No further relevant information available.

 Additional ecological information:

 General notes:

 Do not allow material to be released to the environment without proper governmental permits.

 Do not allow undiluted product or large quantities to reach ground water, water course or sewage system.

 Avoid transfer into the environment.

 Results of PBT and vPvB assessment

 PBT: Not applicable

**PBT:** Not applicable. **vPvB:** Not applicable Other adverse effects No further relevant information available.

### 13 Disposal considerations

### Waste treatment methods

Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.
