

Safety Data Sheet per OSHA HazCom 2012

Product name: 5-Chloro-2-hydroxybenzamide

(Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen chloride (HCI) Hydrogen cyanide (HCN) Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid context with the everage and exin Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. **Breathing equipment:** Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses **Body protection:** Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Solid Color: White Not determined Odor: Odor threshold: Not determined. Not applicable. pH-value: Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: 223-226 °C (433-439 °F) Not determined Not determined Flash point: Not applicable Flammability (solid, gaseous) Ignition temperature: Not determined. Not determined (Contd. on page 3)

Product name: 5-Chloro-2-hydroxybenzamide

Page 3/4 Printing date 11/23/2015 Reviewed on 07/28/2009

		(Contd. of page 2)
Decomposition temperature: Auto igniting:	Not determined Not determined.	
	Product does not present an explosion hazard.	
Danger of explosion: Explosion limits: Lower:	Not determined	
Upper:	Not determined	
Density:	Not applicable. Not determined	
	Not determined. Not applicable.	
Evaporation rate	Not applicable.	
	Not determined	
Partition coefficient (n-octanol/water): Viscosity:	Not determined.	
dynamic:	Not applicable. Not applicable.	
	No further relevant information available.	
10 Stability and reactivity		
Reactivity No information known.		
Chemical stability Stable under recomm	nended storage conditions. o be avoided: Decomposition will not occur if used and stored according to specifications.	
Possibility of hazardous reactions No	dangerous reactions known	
Conditions to avoid No further relevant Incompatible materials: Oxidizing agent	iniomation available.	
Hazardous decomposition products: Carbon monoxide and carbon dioxide		
Nitrogen oxides Hydrogen chloride (HCl)		
Hydrogen cyanide		
11 Toxicological information		
Information on toxicological effects		
Acute toxicity: No effects known. LD/LC50 values that are relevant for cl	lassification: No data	
Skin irritation or corrosion: Causes ski Eye irritation or corrosion: Causes seri	in irritation.	
Sensitization: No sensitizing effects kno Germ cell mutagenicity: No effects kno	WIN.	
Carcinogenicity: No classification data of	on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Reproductive foxicity: No effects known Specific target organ system toxicity -	n. - repeated exposure: No effects known.	
Specific target organ system toxicity - Aspiration hazard: No effects known.	- single exposure: May cause respiratory irritation.	
Subacute to chronic toxicity: No effects	ts known. The base of sum languages the sector and sharping to initially of this substance is not fully language.	
¥	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
12 Ecological information		
Toxicity Aquatic toxicity: No further relevant info	ormation available.	
Persistence and degradability No furthe Bioaccumulative potential No further re	ner relevant information available.	
Mobility in soil No further relevant inform	mation available.	
Additional ecological information: General notes:		
Do not allow material to be released to th Do not allow undiluted product or large of	he environment without proper governmental permits. Juantities to reach ground water, water course or sewage system.	
Avoid transfer into the environment. Results of PBT and vPvB assessment		
PBT: Not applicable.		
vPvB: Not applicable. Other adverse effects No further releval	nt information available.	
13 Disposal considerations		
Waste treatment methods		
Recommendation Consult state, local or Uncleaned packagings:	or national regulations to ensure proper disposal.	
Recommendation: Disposal must be ma	ade according to official regulations.	
14 Transport information Not a hazardous material for transportation	on.	
14 Transport information Not a hazardous material for transportatio UN-Number DOT, IMDG, IATA	ion. None
