Product name: 2-(Methylsulfonylam	ino)benzeneboronic acid	
Information for deator		(Contd. of page 1)
Information for doctor Most important symptoms and effects	s, both acute and delayed No further relevant information available.	
indication of any immediate medical a	attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures		
If this product is involved in a fire, the for Carbon monoxide and carbon dioxide Sulfur oxides (SOx) Nitrogen oxides (NOx)	dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. s <b>tance or mixture</b> llowing can be released:	
Boron oxide Advice for firefighters Protective equipment: Wear self-contained respirator.		
Wear fully protective impervious suit.		
6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 13 for disposal information.		
7 Handling and storage		
Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed	containers.	
Ensure good ventilation at the workplace	e. <b>explosions and fires:</b> No information known.	
Conditions for safe storage, including	•	
	ed containers.	
,		
8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.		
Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data		
Exposure controls Personal protective equipment General protective and hygienic meas	sures	
The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work.		
Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment.		
Breathing equipment: Úse suitable respirator when high concentrations are present. Protection of hands: Impervious gloves		
Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing.
