Version 1
1 Identification
Product identifier
Product name: Potassium permanganate
Stock number: 14307 CAS Number: 7722-64-7
EC number: 231-760-3
Index number:
025-002-00-9 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development
Details of the supplier of the safety data sheet Manufacturer/Supplier:
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 20 Brand Stread
30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660
Fax: 800-322-4757
Email: tech@alfa.com www.alfa.com
Information Department: Health, Safety and Environmental Department Emergency telephone number:
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.
2 Hazard(s) identification
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)
GHS03 Flame over circle
Ox. Sol. 2 H272 May intensify fire; oxidizer.
GHS07
Acute Tox. 4 H302 Harmful if swallowed. Hazards not otherwise classified No information known.
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms
$\wedge$
GHS03 GHS07
Signal word Danger Hazard statements
H272 May intensify fire; oxidizer. H302 Harmful if swallowed.
Precautionary statements
P221 Take any precaution to avoid mixing with combustibles. P210 Keep away from heat No smoking. P220 Keep/Store away from clothing/combustible materials.
P280 Wear protective gloves / eye protection / face protection. P301+P312 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations
WHNIS classification C - Oxidizing materials
Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System)
HEALTH 2 Health (acute effects) = 2
FIRE     Image: Flammability = 0       Reactivity 3     Physical Hazard = 3
Other hazards
Results of PBT and vPvB assessment PBT: Not applicable.
vPvB: Not applicable.
3 Composition/information on ingredients
Chemical characterization: Substances CAS# Description:
7722-64-7 Potassium permanganate Concentration: <100%
Identification number(s): EC number: 231-760-3
Lichamber: 231-700-3 Index number: 025-002-00-9
(Contd. on page 2)

## Product name: Potassium permanganate

4 First-aid measures	
Description of first aid measures	
<b>After inhalation</b> Supply fresh air. If required, provide artificial respiration. Keep patient warm.	
Seek immediate medical advice. After skin contact	
Immediately wash with water and soap and rinse thoroughly.	
Seek immediate medical advice. After eve contact Rinse opened eve for several minutes under running water. Then consult a doctor	
After swallowing Seek medical treatment. Information for doctor	
Information for doctor Most important symptoms and effects, both acute and delayed Harmful if swallowed. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media Suitable extinguishing agents Use carbon dioxide, extinguishing powder or foam. Water may be ineffective but may be used for cooling expose	deantainare
For safety reasons unsuitable extinguishing agents Halocarbon extinguisher	u containers.
Special hazards arising from the substance or mixture This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition.	
If this product is involved in a fire, the following can be released: Potassium oxide	
Manganese oxides Advice for firefighters	
Advice for firefighters Protective equipment:	
<b>Protective equipment:</b> Wear self-contained respirator. Wear fully protective impervious suit.	
	———
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.	
Ensure adequate ventilation	
Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Dispose of contaminated material as waste according to section 13. Provention of accordance based on the section of the Provention of accordance based on the section of the sect	
Acts as an oxidizing agent on organic materials such as wood, paper and fats Keep away from combustible material. <b>Reference to other sections</b>	
See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.	
See Section 8 for information on personal protection equipment. See Section 13 for disposal information. <b>Protective Action Criteria for Chemicals</b>	
Protective Action Criteria for Chemicals PAC-1: 8.6 mg/m3	
<b>PAC-2</b> : 14 mā/m3	
<b>PAC-3:</b> 150 m̃g/m3	
7 Handling and storage	
Handling Precautions for safe handling	
Keen container tightly sealed	
Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace.	
Information about protection against explosions and fires: Substance/product can reduce the ignition temperature of flammable substances.	
This substance is an oxidizer and its heat of reaction with reducing agents or combustibles may cause ignition.	
Conditions for safe storage, including any incompatibilities	
Storage Requirements to be met by storerooms and receptacles: No special requirements.	
Information about storage in one common storage facility: Store away from flammable substances.	
Store away from reducing agents. Store in the dark.	
Do not store with organic materials.	
Store away from metal powders. Further information about storage conditions:	
Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
Protect from exposure to light.	
Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters	
Components with limit values that require monitoring at the workplace:	
7722-64-7 Potassium permanganate (100.0%)	
PEL (USA) Ceiling limit value: 5 mg/m³ as Mn	
REL (USA) Short-term value: 3 mg/m <sup>3</sup> Long-term value: 1 mg/m <sup>3</sup>	
as Mn	
TLV (USA) Long-term value: 0.02* 0.1* mg/m <sup>3</sup> as Mn; *respirable **inhalable fraction	
EL (Canada) Long-term value: 0.2 mg/m <sup>3</sup>	
as Mn; R	
Additional information: No data	(Contd. on page 3)
	USA —

(Contd. of page 2)

Product name: Potassium permanganate

Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solied and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirators with type P100 (USA) or P3 (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air- purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Material of gloves Nitrile rubber, NBR Penetration time of glove material (in minutes) 480 Glove thickness: 0.11 mm Eye protection: Protection: Protection with side shields / NIOSH (US) or EN 166(EU) Body protection: Protection: Protection: Protection with clothing.				
9 Physical and chemical properties	·			
Information on basic physical and chemical properties				
General Information Appearance: Form: Odor: Odor threshold:	Crystalline Not determined Not determined.			
pH-value:	Not applicable.			
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	240 °C (464 °F) (dec) Not determined Not determined Contact with combustible material may cause fire. Not determined Not determined Not determined.			
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure at 20 °C (68 °F): Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water at 20 °C (68 °F): Partition coefficient (n-octanol/water): Viscosity: dynamic: kinematic: Other information	Not determined. Not determined Not determined 0 hPa 2.7 g/cm <sup>3</sup> (22.532 lbs/gal) Not determined. Not applicable. Not applicable. 64.3 g/l			
10 Stability and reactivity Reactivity May intensify fire; oxidizer. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with reducing agents Reacts with reducing agents Reactive relevant information available. Incompatible materials: Flammable substances Reducing agents Organic materials Metal powders Light Hazardous decomposition products: Potassium oxide Manganese oxides				
11 Toxicological information         Information on toxicological effects         Acute toxicity:         Harmful if swallowed.         The Registry of Toxic Effects of Chemical Substances (RTECS) contains acute toxicity data for this substance.         LD/LC50 values that are relevant for classification:         Oral       LD50         Skin irritation or corrosion: May cause irritation         Eye irritation or corrosion: May cause irritation         Sensitization:       Sensitization:         Oral       LD50         The Registry of Toxic Effects of Chemical Substances (RTECS) contains acute toxicity data for this substance.         Germ cell mutagenicity: The Registry of Toxic Effects of Chemical Substances (RTECS) contains mutation data for this substance.         Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.         (Contd. on page 4)				

Product name: Potassium permanganate	
Specific target organ system toxicity - repeated exposure: N Specific target organ system toxicity - single exposure: No e Aspiration hazard: No effects known.	
12 Ecological information Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information a Bioaccumulative potential No further relevant information avail Mobility in soil No further relevant information available. Ecotoxical effects: Remark: Very toxic for aquatic organisms Additional ecological information: General notes: Do not allow product to reach ground water, water course or sew Danger to drinking water if even extremely small quantities leak i Also poisonous for fish and plankton in water bodies. May cause long lasting harmful effects to aquatic life. Avoid transfer into the environment. Very toxic for aquatic organisms Results of PBT and vPvB assessment PBT: Not applicable. VPvB: Not applicable. Other adverse effects No further relevant information available.	adre.
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to Uncleaned packagings: Recommendation: Disposal must be made according to official
