

Safety Data Sheet per OSHA HazCom 2012

(Contd. of page 1) 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures **Personal precautions, protective equipment and emergency procedures** Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). **Prevention of secondary hazards:** Keep away from ignition sources. **Reference to other sections** See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep infilms sources away Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an eronomically appropriate working environment. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. **Breathing equipment:** Use suitable respirator when high concentrations are present. **Protection of hands:** Impervious gloves Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses **Body protection:** Protective work clothing. LISA

9 Physical and chemical properties	S		
Information on basic physical and chemical properties			
General Information Appearance:			
Form: Color:	Liquid Colorless		
Odor: Odor threshold:	Not determined Not determined.		
pH-value:	Not determined.		
Change in condition	Her adominou.		
Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	-62 °C (-80 °F) 154-156 °C (309-313 °F) Not determined		
Flash point:	32 °C (90 °F)		
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined		
Decomposition temperature: Auto igniting:	Not determined Not determined.		
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures is possible.		
Explosion limits: Lower:	Not determined		
Upper:	Not determined		
Vapor pressure: Density at 20 °C (68 °F):	Not determined 0.858 g/cm³ (7.16 lbs/gal)		
Relative density Vapor density	Not determined. Not determined.		
Evaporation rate	Not determined.		
Solubility in / Miscibility with Water:	Not miscible or difficult to mix		
Partition coefficient (n-octanol/water, Viscosity:			
dynamic:	Not determined.		
kinematic: Other information	Not determined. No further relevant information available.		
Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide 11 Toxicological information Information on toxicological effects Acute toxicity: No effects known. LD/LCS0 values that are relevant for classification: No data Skin irritation or corrosion: Causes skin irritation. Eye irritation or corrosion: Causes skin irritation. Sensitization: May cause an allergic skin reaction. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Germ cell mutagenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known.			
Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) reports the following effects in laboratory animals: Lungs, Thorax, or Respiration - respiratory depression Lungs, Thorax, or respiration - bronchiolar constriction.			
Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.			
12 Ecological information			
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Ecotoxical effects: Remark: Toxic for aquatic organisms Additional ecological information: General notes: Do not allow product to reach ground water, water course or sewage system. Do not allow material to be released to the environment without proper governmental permits. Toxic for aquatic organisms Danger to drinking water if even small quantities leak into the ground. Also poisonous for fish and plankton in water bodies. Toxic to aquatic life. May cause long lasting harmful effects to aquatic life. Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable.			
Other adverse effects No further relevant information available.			

USA (Contd. on page 4)

(Contd. of page 3)

Product name: (+)-alpha-Pinene

13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.			
14 Transport information			
UN-Number DOT, IMDG, IATA	UN2368		
UN proper shipping name DOT IMDG, IATA	Alpha-Pinene Alpha-PINENE		
Transport hazard class(es) DOT			
Class Label Class Label IMDG, IATA	3 Flammable liquids. 3 3 (F1) Flammable liquids 3		
Class Label	3 Flammable liquids. 3		
Packing group DOT, IMDG, IATA	Ш		
Environmental hazards:	Environmentally hazardous substance, liquid		
Special precautions for user	Warning: Flammable liquids		
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Cod	le Not applicable.		
Transport/Additional information: DOT			
Marine Pollutant (DOT):	No		
UN "Model Regulation":	UN2368, alpha-Pinene, 3, III		
Hazard pictograms With Statements Hazard statements P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P211 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P211 Avoid breathing dust/fume/gas/mis/vapours/syray. P303-P361-P3351 IP 305 IF in X well or hait): Take off immediately all contaminated clothing. Rinse skin with water/shower. P303-P361-P3351 IF in X EVES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P403+P361-P3351 IF in X EVES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P403+P361 Dispose of contents/container in accordance with local/regional/national/international regulations. National regulations Soft in X well on the U.S. Environmental Proteotian Agency Tocic Substances Control Act Chemical substance Inventory. Ailfornie Proposition 65 Foro 65 - Chemical Substance is not listed.			
Chemical safety assessment: A Chemical Safety Assessment has not been carried out. 16 Other information Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
