| 4 First-aid measures | |
|---|--------------------|
| | |
| Description of first aid measures General information | |
| Immediately remove any clothing soiled by the product. Remove breathing apparatus only after contaminated clothing has been completely removed. In case of irregular breathing or respiratory arrest provide artificial respiration. | |
| After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. | |
| After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. | |
| Seek immédiate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Do not induce vomiting; immediately call for medical help. | |
| Information for doctor | |
| Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. | |
| 5 Fire-fighting measures | |
| Extinguishing media Suitable extinguishing agents Product is not flammable. Use fire-fighting measures that suit the surrounding fire. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: | |
| l oxic metal oxide fume Advice for firefighters | |
| Protective equipment: Wear self-contained respirator. | |
| Wear fully protective impervious suit. | |
| 6 Accidental release measures | |
| Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation | |
| Ensure adequate verification Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: | |
| Dispose of contaminated material as waste according to section 13 | |
| Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections | |
| See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. | |
| See Section 13 for disposal information. | |
| 7 Handling and storage | |
| Handling Precautions for safe handling Keep container tightly sealed. | |
| Keep container tightly sealed. [¬] Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. | |
| Open and handle container with care. | |
| Information about protection against explosions and fires: The product is not flammable Conditions for safe storage, including any incompatibilities | |
| Storage Requirements to be met by storerooms and receptacles: No special requirements. | |
| Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: | |
| Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. | |
| Store in cool, any containers in weil sealed containers. Specific end use(s) No further relevant information available. | |
| 8 Exposure controls/personal protection | |
| Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. | |
| Control parameters Components with limit values that require monitoring at the workplace: | |
| Selenium and selenium compounds (as Se) | |

Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Toxic metal oxide fume

11 Toxicological information

Information on toxicological effects
Acute toxicity:
Toxic if swallowed.
LD/LC50 values that are relevant for classification: No data
Skin irritation or corrosion: Irritant to skin and mucous membranes.
Eye irritation or corrosion: Irritating effect.
Sensitization: No sensitizing effects known.
Germ cell mutagenicity: No effects known.
Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.
Reproductive toxicity: No effects known.
Specific target organ system toxicity - repeated exposure:
Nay cause damage to the central nervous system, the liver and the digestive system through prolonged or repeated exposure. Route of exposure: Oral, Inhalative.
Specific target organ system toxicity - single exposure: No effects known.
Cher information (about experimental toxicology): Reproductive effects have been observed on tests with laboratory animals.
Subacute to chronic toxicity:
Selenium may cause amyotrophic lateral sclerosis, bronchial irritation, gastrointestinal distress, vasopharyngeal irritation, garlic odor on breath and sweat, metallic taste, pallor, irritability, excessive fatigue, loss of fingernails and hair, pulmonary edema, anemia and weight loss.
(Contd. on page Information on toxicological effects

(Contd. on page 4)

| Product name: Potassium selenate | | |
|--|---|-----------------|
| | | (Contd. of page |
| Subacute to chronic toxicity: The Registry of Toxic Effects of Chemical Substances (RTECS) reports the Related to Chronic Data - death. | e following effects in laboratory animals: | |
| Related to Chronic Data - death. Reproductive - Effects on Newborn - weaning or lactation index (e.g., # ali | ive at weaning per # alive at day 4). | |
| Reproductive - Effects on Newborn - weaning or lactation index (e.g., # aliv Reproductive - Fertility - female fertility index (e.g. # females pregnant per a Additional toxicological information: To the best of our knowledge the a | # sperm positive females; # females pregnant per # females mated) acute and chronic toxicity of this substance is not fully known. | |
| 2 Ecological information | | |
| Toxicity Aquatic toxicity: No further relevant information available. | | |
| Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. | | |
| Mobility in soil No further relevant information available. | | |
| Ecotoxical effects: Remark: Very toxic for aquatic organisms | | |
| Additional ecological information: General notes: | | |
| Do not allow material to be released to the environment without proper gov | vernmental permits. | |
| Do not allow product to reach ground water, water course or sewage syste. Danger to drinking water if even extremely small quantities leak into the gro Also poisonous for fish and plankton in water bodies. | ound. | |
| Also poisonous for fish and plankton in water bodies. May cause long lasting harmful effects to aquatic life. Avoid transfer into the environment. | | |
| Avoid transfer into the environment. Very toxic for aquatic organisms | | |
| Very toxic for aquatic organisms Results of PBT and vPvB assessment PBT: Not applicable. | | |
| vPvB: Not applicable. | | |
| Other adverse effects No further relevant information available. | | |
| 3 Disposal considerations Waste treatment methods | | |
| Recommendation Consult state, local or national regulations to ensure pro | roper disposal. | |
| Uncleaned packagings: Recommendation: Disposal must be made according to official regulation | IS. | |
| Recommended cleansing agent: Water, if necessary with cleansing ager | | |
| 4 Transport information | | |
