

# Safety Data Sheet per OSHA HazCom 2012

Review	ved on 01/05/2015
1 Identification	
Product identifier Product name: <b>Phenylphosphonic dichloride</b>	
Stock number: H36037	
CAS Number: 824-72-6	
EC number:	
212-534-3 <b>Relevant identified uses of the substance or mixture and uses advised against.</b> Identified use: SU24 Scientific research and development	
·	
Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Acces	
Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street	
Ward Hill, MA 01835-8099 <u>Tel: 800-343-0660</u>	
Fax: 800-322-4757 Email: tech@alfa.com	
www.alfa.com Information Department: Health, Safety and Environmental Department	
Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-	0790
	0709.
2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)	
GHS05 Corrosion	
Skin Corr. 1B H314 Causes severe skin burns and eye damage. Eye Dam. 1    H318 Causes serious eye damage.	
GHS07	
Acute Tox. 4 H302 Harmful if swallowed. Hazards not otherwise classified No information known.	
Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms	
GHS05 GHS07	
Signal word Danger Hazard statements	
H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage.	
Precautionary statements P260 Do not breathe dust/fume/gas/mist/vapours/spray.	
Precautionary statements P260 Do not breathe dust/fume/gas/mist/vapours/spray. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting. P405	g.
P400 SIDIE IOCKEU DO.	, ,
P501 Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification	
D2B - Toxic material causing other toxic effects E - Corrosive material	
$\Theta$	
Classification system HMIS ratings (scale 0-4)	
(Hazardous Materials Identification System)

Other hazards Results of PBT and vPvB assessment	
PBT: Not applicable. vPvB: Not applicable.	
3 Composition/information on ingredients	
Chemical characterization: Substances CAS# Description:	
824-72-6 Phenylphosphonic dichloride	
Identification number(s): EC number: 212-534-3	
4 First-aid measures	
Description of first aid measures General information Immediately remove any clothing soiled by the product.	
concernation minioulatory fornovo any obtaining solice by the product.	(Contd. on page 2) USA

# Safety Data Sheet per OSHA HazCom 2012

### Product name: Phenvlphosphonic dichloride

	eviewed 011 01/03/2013
Product name: Phenylphosphonic dichloride	
After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes severe skin burns. Causes serious eye damage. Indication of any immediate medical attention and special treatment needed No further relevant information available.	(Contd. of page 1)
5 Fire-fighting measures	
5 Fire-rignting measures Extinguishing media Suitable extinguishing agents in case of fire, use sand, carbon dioxide or powdered extinguishing agent. Never use water. For safety reasons unsuitable extinguishing agents Water Special hazards arising from the substance or mixture Reacts violently with water If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI) Phosphorus oxides Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures	!
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Do not flush with water or aqueous cleansing agents Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 7 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handing     Precautions for safe handling     Handle under dry protective gas.     Keep container tightly sealed.     Store in cool, dry place in tightly closed containers.     Ensure good ventilation at the workplace.     Information about protection against explosions and fires: No information known.     Conditions for safe storage, including any incompatibilities     Storage     Requirements to be met by storerooms and receptacles: No special requirements.     Information about storage in one common storage facility:     Store away from water/moisture.     Store away from storing bases.     Store under dry inert gas.     This product is moisture sensitive.     Protect from humidity and water.     Keep container tightly sealed.     Store in cool, dry conditions in well sealed containers.     Store in cool, dry conditions in formation available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.	
Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Do not inhale dust / smoke / mist. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with organic vapor/acid gas cartridges as a backup to engineering controls. Risk assessment should be performed to determ	ine if air-purifying

Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with organic vapor/acid gas cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards such as NIOSH (USA) or CEN (EU). (Contd. on page 3) USA

### Product name: Phenylphosphonic dichloride

Product name: Phenylphosphonic dichloride			
<b>Protection of hands:</b> Impervious gloves Check protective gloves prior to each us The selection of suitable gloves not only <b>Penetration time of glove material (in</b> <b>Eye protection:</b> Tightly sealed goggles Full face protection <b>Body protection:</b> Protective work clothin	depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. <b>minutes)</b> Not determined	(Contd. of page 2	
9 Physical and chemical properties			
Information on basic physical and che General Information Appearance: Form: Color: Odor: Odor: Odor threshold:			
pH-value:	Not determined.		
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	1-3 °C (34-37 °F) 258 °C (496 °F) Not determined		
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	204 °C (399 °F) Not determined Not determined Not determined Not determined.		
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water): Viscosity: dynamic: kinematic: Other information	Not determined. Not determined Not determined 1.379 g/cm³ (11.508 lbs/gal) Not determined. Not determined. Not determined. Reacts violently Not determined. Not determined. Not determined. Not determined. Not determined. Not determined. Not determined. Not muther relevant information available.		
10 Stability and reactivity Reactivity Reacts violently with water. Chemical stability Stable under recommo	nended storage conditions.		

### 10 St

Re Cl Chemical stability Stable Under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Reacts violently with water Conditions to avoid No further relevant information available. Incompatible materials: Pases Dases Oxidizing agents Water/moisture **Hazardous decomposition products:** Carbon monoxide and carbon dioxide Hydrogen chloride (HCl) Phosphorus oxides (e.g. P2O5)

#### 11 Toxicological information

Information on toxicological effects

Information on toxicological effects Acute toxicity: Harmful if swallowed. Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes severe skin burns. Eye irritation or corrosion: Causes sevious eye damage. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.

#### 12 Ecological information

Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available.

(Contd. on page 4)

# Safety Data Sheet per OSHA HazCom 2012

Product name: Phenylphosphonic dichloride	
Additional ecological information: General notes: Do not allow undiluted product or large quantities to reach ground Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. Other adverse effects No further relevant information available.	(Contd. of page 3) water, water course or sewage system.
13 Disposal considerations Waste treatment methods Recommendation Consult state, local or national regulations to e	ensure proper disposal.
Uncleaned packagings: Recommendation: Disposal must be made according to official r	egulations.
14 Transport information	
UN-Number DOT, IMDG, IATA	UN3265
UN proper shipping name DOT	Corrosive liquid, acidic, organic, n.o.s. (Phenylphosphonic dichloride)
IMDG, IATA	Corrosive liquid, acidic, organic, n.o.s. (Phenylphosphonic dichloride) CORROSIVE LIQUID, ACIDIC, ORGANIC, N.O.S. (Phenylphosphonic dichloride)
Transport hazard class(es) DOT	
Class	8 Corrosive substances.
Label Class Label IMDG, IATA	8 8 (C3) Corrosive substances 8
Class Label	8 Corrosive substances. 8
Packing group DOT, IMDG, IATA	11
Environmental hazards:	Not applicable.
Special precautions for user EMS Number: Segregation groups	Warning: Corrosive substances F-A,S-B Acids
Transport in bulk according to Annex II of MARPOL73/78 and	the IBC Code Not applicable.
Transport/Additional information: DOT	
Marine Pollutant (DOT):	No
UN "Model Regulation":	UN3265, Corrosive liquid, acidic, organic, n.o.s. (Phenylphosphonic dichloride), 8, Il
