

Safety Data Sheet per OSHA HazCom 2012

## (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed Causes severe skin burns. Causes serious eve damage Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection: Tightly sealed goggles Full face protection Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Liquid Color: Colorless Not determined Odor: Odor threshold: Not determined pH-value: Not determined Change in condition Melting point/Melting range: Not determined Boiling point/Boiling range: 244 °C (471 °F)

## Product name: (S)-(-)-2-Tetrahydrofuroic acid

Page 3/5 Printing date 11/24/2015 Reviewed on 10/31/2008

	Reviewed on 10/31/2
oduct name: (S)-(-)-2-Tetrahydrof	
Sublimation temperature / start:	Not determined (Contd. of page
Flash point:	139 °C (282 °F)
Flammability (solid, gaseous)	Not determined.
Ignition temperature: Decomposition temperature:	Not determined Not determined
Auto igniting:	Not determined.
Danger of explosion:	Product does not present an explosion hazard.
Explosion limits:	
Lower: Upper:	Not determined Not determined
Vapor pressure:	Not determined
Density at 20 °C (68 °F): Relative density	1.213 g/cm³ (10.122 lbs/gal) Not determined.
Vapor density	Not determined.
Evaporation rate Solubility in / Miscibility with	Not determined.
Water:	Fully miscible
Partition coefficient (n-octanol/water)	): Not determined.
Viscosity: dynamic:	Not determined.
kinematic:	Not determined.
Other information	No further relevant information available.
Stability and reactivity	
Reactivity No information known.	
Chemical stability Stable under recom	imended storage conditions.
Thermal decomposition / conditions	nmended storage conditions. <b>to be avoided:</b> Decomposition will not occur if used and stored according to specifications.
Possibility of hazardous reactions No Conditions to avoid No further relevan	
Incompatible materials:	
Bases Oxidizing agents	
Hazardous decomposition products:	Carbon monoxide and carbon dioxide
T-viselesient information	
Toxicological information	
Information on toxicological effects Acute toxicity: Swallowing will lead to a	a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach.
LD/LC50 values that are relevant for a	classification: No data
Skin irritation or corrosion: Causes se Eye irritation or corrosion: Causes se	
Sensitization: No sensitizing effects kn	nown.
Germ cell mutagenicity: No effects kno	nown. a on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.
Reproductive toxicity: No effects know	wn.
Specific target organ system toxicity	/ - repeated exposure: No effects known.
Specific target organ system toxicity Aspiration hazard: No effects known.	
Subacute to chronic toxicity: No effect	sts known.
Additional toxicological information:	To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.
Ecological information	
Toxicity	и и Ч.БТ.
Aquatic toxicity: No further relevant int Persistence and degradability No furth	iormation available. ther relevant information available
Persistence and degradability No furth Bioaccumulative potential No further I Mobility in soil No further relevant info	relevant information available.
Mobility in soil No further relevant infor Additional ecological information:	rmation available.
General notes:	
Do not allow material to be released to t	the environment without proper governmental permits.
Do not allow undiluted product or large Avoid transfer into the environment.	quantities to reach ground water, water course or sewage system.
Results of PBT and vPvB assessmen	it state of the st
PBT: Not applicable.	
vPvB: Not applicable. Other adverse effects No further releva	ant information available.
Disposal considerations	
Waste treatment methods Recommendation Consult state, local of	or national regulations to ensure proper disposal.
Uncleaned packagings:	
Recommendation: Disposal must be m Recommended cleansing agent: Wate	ade according to official regulations. ter if necessary with cleansing agents
	51, II 116663647 with fordinging agoing.
Transport information UN-Number	
DOT, IMDG, IATA	UN3265
UN proper shipping name DOT	Company liquid poidio organia n.a. (/S) / ) 2 Totrohydrofuraia acid)
