

# Safety Data Sheet per OSHA HazCom 2012

Kevi	ewed on 12/22/2009
Product name: p-Toluoyl chloride	
After skin contact	(Contd. of page 1)
Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment.	
Information for doctor Most important symptoms and effects, both acute and delayed	
Causes severe skin burns. Causes serious eye damage.	
Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures	
Extinguishing media Suitable extinguishing agents Extinguishing powder. Do not use water	
Suitable extinguishing agents Extinguishing powder. Do not use water. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
Carbon monoxide and carbon dioxide Hydrogen chloride (HCl)	
Advice for firefighters	
<b>Protective equipment:</b> Wear self-contained respirator. Wear fully protective impervious suit.	
6 Accidental release measures	
Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation	
<b>Environmental precautions:</b> Do not allow material to be released to the environment without proper governmental permits.	
Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
Use neutralizing agent. Dispose of contaminated material as waste according to section 13.	
Ensure adequate ventilation. <b>Prevention of secondary hazards:</b> Keep away from ignition sources. <b>Reference to other sections</b>	
See Section 7 for information on safe handling	
See Section 8 for information on personal protection equipment. See Section 13 for disposal information.	
7 Handling and storage	
Handling	
Precautions for safe handling Keep container tightly sealed.	
Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace.	
Information about protection against explosions and fires: Keep ignition sources away. Conditions for safe storage, including any incompatibilities	
Storage Requirements to be met by storerooms and receptacles: No special requirements.	
Information about storage in one common storage facility:	
Store away from oxidizing agents. Store away from strong bases. Further information about storage conditions:	
Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.	
Specific end use(s) No further relevant information available.	
8 Exposure controls/personal protection	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters	
Components with limit values that require monitoring at the workplace: Not required. Additional information: No data	
Exposure controls Personal protective equipment	
General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed.	
Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately.	
Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.	
Mon contact with the eyes and skin. Maintain an ergonomically appropriate working environment. <b>Breathing equipment:</b> Use suitable respirator when high concentrations are present.	
Protection of hands:	
Impervious gloves Check protective gloves prior to each use for their proper condition. The condition of with the plane act and dependence to reactive but also an quality. Quality will your from monufactures to monufactures	
The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Eye protection: Turbity pooled accretes	
Tightly sealed goggles Full face protection <b>Body protection</b> : Protective work clothing.	
9 Physical and chemical properties Information on basic physical and chemical properties	
General Information Appearance:	
Form: Liquid Color: Colorless

# Safety Data Sheet per OSHA HazCom 2012

## Product name: p-Toluoyl chloride

		(Contd. of page 2)
Odor: Odor threshold:	Pungent Not determined.	
pH-value:	Not determined.	
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	-2 °C (28 °F) 225-227 °C (437-441 °F) Not determined	
Flash point: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	82 °C (180 °F) Not determined. Not determined Not determined Not determined.	
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure at 20 °C (68 °F): Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate Solubility in / Miscibility with Water: Alcohols: Partition coefficient (n-octanol/water): Viscosity: dynamic:	Not determined.	
kinematic: Other information	Not determined. No further relevant information available.	

### 10 Stability and reactivity

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions No dangerous reactions known Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Bases Active metals Alcohols Amines Hazardous decomposition products: Hydrogen chloride (HCI) Carbon monoxide and carbon dioxide 11 Toxicological information Information on toxicological effects Acute toxicity: Swallowing will lead to a strong corrosive effect on mouth and throat and to the danger of perforation of esophagus and stomach. LD/LC50 values that are relevant for classification: No data Skin irritation or corrosion: Causes servere skin burns. Eye irritation or corrosion: Causes servere skin burns. Eye irritation or corrosion: Causes servere ye damage. Sensitization: No sensitizing effects known. Germ cell mutagenicity: No effects known. Carcinogenicity: No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. Reproductive toxicity: No effects known. Specific target organ system toxicity - repeated exposure: No effects known. Specific target organ system toxicity - single exposure: No effects known. Aspiration hazard: No effects known. Aspiration interest, the oncome to another in the set of our knowledge the acute and chronic toxicity of this substance is not fully known. Additional toxicological information: To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. 12 Ecological information Toxicity

Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information available. Bioaccumulative potential No further relevant information available. Mobility in soil No further relevant information available. Additional ecological information: Additional ecological information: General notes: Do not allow material to be released to the environment without proper governmental permits. Do not allow undiluted product or large quantities to reach ground water, water course or sewage system. Avoid transfer into the opwirgnment. Avoid transfer into the environment. **Results of PBT and vPvB assessment PBT:** Not applicable. **vPvB:** Not applicable. **Other adverse effects** No further relevant information available.

### 13 Disposal considerations

### Waste treatment methods

Recommendation Consult state, local or national regulations to ensure proper disposal. Uncleaned packagings: Recommendation: Disposal must be made according to official regulations.

USA (Contd. on page 4)

# Product name: p-Toluoyl chloride

	(Contd. of page 3)		
<b>14 Transport information</b> Not a hazardous material for transportation.			
UN-Number DOT, IMDG, IATA	UN3265 None		
UN proper shipping name DOT	None Corrosive liquid, acidic, organic, n.o.s. (p-Toluoyl chloride)		
IMDG, IATA	None		
Transport hazard class(es) DOT			
Class	8 Corrosive substances. None		
Label Class	8 8 (C3) Corrosive substances None		
Label IMDG, IATA	8		
Class Label	8 Corrosive substances. None 8		
Packing group DOT, IMDG, IATA			
DOT, IMDG, IATA	ll None		
Environmental hazards:	Not applicable.		
Special precautions for user EMS Number: Segregation groups	Warning: Corrosive substances F-A,S-B Acids		
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Transport/Additional information:			
DOT	Not dangerous according to the above specifications.		
Marine Pollutant (DOT):	No		
UN "Model Regulation":	UN3265, Corrosive liquid, acidic, organic, n.o.s. (p-Toluoyl chloride), 8, II		
15 Regulatory information Safety, health and environmental regulations/legislation specific for the substance or mixture GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms			
GHS05			
Signal word Danger   Hazard statements   H227 Combustible liquid.   H314 Causes severe skin burns and eye damage.   Precautionary statements   P280 Wear protective gloves/protective clothing/eye protection/face protection.   P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.   P309 IF exposed or if you feed unwell:   P310 Immediately call a POISON CENTER/doctor/   National regulations All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory.   SARA Section 313 (specific toxic chemical listings) Substance is not listed.   Prop 65 - Chemicals known to cause cancer Substance is not listed.   Prop 65 - Developmental toxicity, female Substance is not listed.   Prop 65 - Developmental toxicity, female Substance is not listed.   Prop 65 - Developmental toxicity, mease Substance is not listed.   Prop 65 - Developmental toxicity, male Substance is not listed.   Prop 65 - Developmental toxicity, male Substance is not listed.   Information about limitation of use: For use only by technically qualified individuals.   Other regulations, limitations and prohibitive regulations   Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No.			
16 Other information Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
