

Safety Data Sheet per OSHA HazCom 2012

(Contd. on page 3)

Product name: 4-Carbamoyl-3-fluorobenzeneboronic acid

(Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen fluoride (HF) Nitrogen oxides (NOx) Boron oxide Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: No information known. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls Personal protective equipment General protective and hygienic measures General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all solled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Recommended filter device for short term use: Use a respirator with type N95 (USA) or PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air-purifying respirators are appropriate. Only use equipment tested and approved under appropriate government standards. Protection of hands: Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. **Penetration time of glove material (in minutes)** Not determined **Eye protection:** Safety glasses **Body protection:** Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Color: Solid Off-white Not determined Odor: Odor threshold: Not determined. pH-value: Not applicable. Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Not determined

Not determined Not determined

Product name: 4-CarbamovI-3-fluorobenzeneboronic acid

· · · · · · · · · · · · · · · · · · ·		Contd. of pag
Flammability (solid, gaseous) Ignition temperature:	Not determined. Not determined	
Decomposition temperature:	Not determined	
Auto igniting:	Not determined.	
Danger of explosion: Explosion limits:	Not determined.	
Lower:	Not determined	
Upper: /apor pressure:	Not determined Not applicable.	
Vapor pressure: Density:	Not determined	
Relative density	Not determined.	
/apor density Evaporation rate	Not applicable. Not applicable.	
Solubility in / Miscibility with		
Water: Partition coefficient (n-octanol/wate	Not determined ter): Not determined.	
Viscosity:		
dynamic: kinematic:	Not applicable. Not applicable.	
Other information	No further relevant information available.	
Stability and reactivity		
Reactivity No information known.		
Chemical stability Stable under reco	ommended storage conditions.	
Thermal decomposition / conditions Possibility of hazardous reactions	ns to be avoided: Decomposition will not occur if used and stored according to specifications. Reacts with strong oxidizing agents	
Conditions to avoid No further releva	vant information available.	
Incompatible materials: Oxidizing ag Hazardous decomposition products	gents	
Carbon monoxide and carbon dioxide	s: e	
Hydrogen fluoride		
Nitrogen oxides Boron oxide		
Toxicological information		
Information on toxicological effects		
Acute toxicity: No effects known.		
LD/LC50 values that are relevant for		
Skin irritation or corrosion: Causes Eye irritation or corrosion: Causes s	skin irritation.	
Sensitization: No sensitizing effects k	known.	
Germ cell mutagenicity: No effects k	known.	
Reproductive toxicity: No effects known	adequate for an assessment of human carcinogenic potential. nown.	
Specific target organ system toxicit	ity - repeated exposure: No effects known.	
Specific target organ system toxicit Aspiration hazard: No effects known	ity - single exposure: May cause respiratory irritation.	
Subacute to chronic toxicity: No effe	ffects known.	
Additional toxicological information	n : To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.	
Ecological information		
Toxicity	· · · · · · · · · · · · · · · · · · ·	
Aquatic toxicity: No further relevant i Persistence and degradability No fu	information available.	
Bioaccumulative potential No furthe	er relevant information available.	
Mobility in soil No further relevant inf	nformation available.	
Additional ecological information: General notes: Avoid transfer into the	e environment	
Results of PBT and vPvB assessme		
PBT: Not applicable. vPvB: Not applicable.		
Other adverse effects No further rele	evant information available.	
Disposal considerations		
Waste treatment methods		
Recommendation Consult state, loca	al or national regulations to ensure proper disposal.	
Uncleaned packagings: Recommendation: Disposal must be	e made according to official regulations.	
Transport information		
UN-Number		
DOT, ADN, IMDG, IATA	Not applicable	
UN proper shipping name DOT, ADN, IMDG, IATA	Not applicable	
Transport hazard class(es)		
DOT, ADR, ADN, IMDG, IATA Class	Not applicable	
Packing group DOT, IMDG, IATA	Not applicable	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
Transport in bulk according to Anny	nex II of MARPOL73/78 and the IBC Code Not applicable.	Contd. on pa
