Version	n 1
1 Identification	
Product identifier	
Product name: Alkaline Phosphatase, calf intestine, EIA Grade	
Stock number: J61037 CAS Number: 9001-78-9 EC number: 232-631-4 Belowst identified upon of the substance or mixture and upon advised against	
Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Details of the supplier of the safety data sheet Manufacturer/Supplier: Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Hill, MA 01835 8090	
Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com Information Department: Health, Safety and Environmental Department	
Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.	
2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified as hazardous according to 29 CFR 1910 (OSHA GHS). Hazards not otherwise classified No information known.	
Label elements GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable Hazard statements Not applicable WHMIS classification Not controlled Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
Harding indication indication of stemp Health (acute effects) = 1 FRE Flammability = 1 Rescrivity I Physical Hazard = 1 Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.	
3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 9001-78-9 Alkaline Phosphatase Concentration: ≤100% Identification number(s): EC number: 232-631-4	
4 First-aid measures	
Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice.	
After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.	
After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. Information for doctor	
Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.	
5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture	Ī
If this product is involved in a fire, the following can be released: Carbon monoxide Sodium oxide Nitrogen oxides (NOx) Phosphorus oxides	
Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impensious suit	
Wear fully protective impervious suit.	
(Contd. on page	÷2)

Product name: Alkaline Phosphatase, calf intestine, EIA Grade

(Contd. of page 1)

6 Accidental release measures		
Personal precautions, protective equ	uipment and emergency procedures	
Wear protective equipment. Keep unpr	otected persons away.	
Ensure adequate ventilation Environmental precautions: Do not a	llow product to reach sewage system or any water course.	
Methods and material for containme	nt and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).	
Prevention of secondary hazards: No Reference to other sections	o special measures required.	
See Section 7 for information on safe h	andling	
See Section 8 for information on person See Section 13 for disposal information	nal protection equipment.	
See Section 13 for disposal information Protective Action Criteria for Chemic		
PAC-1: Substance is not listed.		
PAC-2: Substance is not listed.		
PAC-3: Substance is not listed.		
7 Handling and storage		
Handling		
Precautions for safe handling Keep of	container tightly sealed.	
	t explosions and fires: No information known.	
Conditions for safe storage, includin Storage	ig any incompatibilities	
	ms and receptacles: Store in freezer (-20 $^{\circ}$).	
Information about storage in one con	mmon storage facility:	
Protect from heat. Store away from oxidizing agents.		
Further information about storage co	pnditions: Keep container tightly sealed.	
Specific end use(s) No further relevant	t information available.	
8 Exposure controls/personal pro	tection	
Additional information about design		
	d designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.	
Control parameters		
Components with limit values that re	equire monitoring at the workplace:	
The product does not contain any relev Additional information: No data	ant quantities of materials with critical values that have to be monitored at the workplace.	
Exposure controls		
Personal protective equipment		
General protective and hygienic mea	asures	
The usual precautionary measures for	handling chemicals should be followed	
Keep away from foodstuffs, beverages	and feed.	
Wash hands before breaks and at the e	and feed. othing immediately. and of work.	
Wash hands before breaks and at the e Maintain an ergonomically appropriate	end of work.
