1 Identification	
Product identifier Broduct remove Belyethylene powder, high density	
Product name: Polyethylene powder, high density Stock number: 41731	
CAS Number:	
9002-88-4 Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development	
Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet	
Manufacturer/Supplier: Alfa Aesar	
Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street	
Ward Hill, MA 01835-8099	
Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4777	
Email: tech@alfa.com www.alfa.com	
Information Department: Health, Safety and Environmental Department Emergency telephone number:	
During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0	1789.
2 Hazard(s) identification	
Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) The substance is not classified as hazardous according to 29 CFR 1910 (OSHA GHS).	
Hazards not otherwise classified No information known.	
Label elements GHS label elements Not applicable	
GHS label elements Not applicable Hazard pictograms Not applicable Signal word Not applicable	
WHMIS classification Not controlled	
Classification system	
HMIS ratings (scale 0-4) (Hazardous Materials Identification System)	
HEALTH I Health (acute effects) = 0 FIRE I Flammability = 1	
REACTIVITY P Physical Hazard = 0	
Other hazards Results of PBT and vPvB assessment	
PBT: Not applicable. vPvB: Not applicable.	
3 Composition/information on ingredients	
Chemical characterization: Substances	
CAS# Description:	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin.	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints.	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing if symptoms persist consult doctor. Information for doctor	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After swallowing If symptoms persist consult doctor.	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100%	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100%	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After seve contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide	
CAS# Description: 9002-88-4 Polyethylene Concentration: <100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released:	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing If symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms persist consult doctor. Information of adoctor 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Protective equipment: No special measures required. 6 Accidental release measures	
CAS# Description: 9002-88-4 Polyethylene Concentration: ±100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Stringuishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Protective equipment: No special measures required. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Not required. Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Pick up mechanically.	
CAS# Description: 9002-88-4 Polyethylene Concentration: ≤100% 4 First-aid measures Description of first aid measures General information No special measures required. After inhalation Seek medical treatment in case of complaints. After skin contact Generally the product does not irritate the skin. After eve contact Ginse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Personal precautions, protective equipment and emergency procedures Not required. Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 1 for information on safe handling See Section 1 for information on on safe handling See Section 1 for information on on allow divident equipment.	
CAS# Description: 9002-88-4 Polyethylene Concentration: s100% 4 First-aid measures Description of first aid measures required. After inhalation No special measures required. After inhalation Seek medical treatment in case of complaints. After inhalation Seek medical treatment in case of complaints. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a line, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters Personal precautions, protective equipment and emergency procedures Not required. Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling See Section 7 for information on on alego hand updection equipment.	
CASH Description: 9002-88-4 Polyethylene Concentration: \$100% 4 First-aid measures Description of first aid measures required. After sin contact Generally the product does not initiate the skin. After skin contact Generally the product does not initiate the skin. After exploring the product does not initiate the skin. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing if symptoms and effects, both acute and delayed No further relevant information available. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. Suitable extinguishing gents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Advice for firefighters	
CASH Description: 9002-88-4 Polyethylene Concentration: <100% 4 First-aid measures General information No special measures required. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special freatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fine, the following can be released: Carbon monotide and carbon dioxide Advice for firefighter. No special measures required. 6 Accidental release measures Personal precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Pick up mechanically. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 8 for information on personal protection equipment. See Section 1 for info	(Contd. on page 2)
CASH Description: 9002-88-4 Polyethylene Concentration: <100% 4 First-aid measures General information No special measures required. After sin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After skin contact Generally the product does not irritate the skin. After eye contact Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing if symptoms persist consult doctor. Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed of Information about protection against of	containers. explosions and fires: No special measures required.
Conditions for safe storage, including Storage Requirements to be met by storeroom Information about storage in one com Further information about storage con Keep container tightly sealed. Store in cool, dry conditions in well seale Specific end use(s) No further relevant	is and receptacles: No special requirements. mon storage facility: Store away from oxidizing agents. nditions:
8 Exposure controls/personal prote	ction
Control parameters Components with limit values that req	<i>f technical systems:</i> No further data; see section 7. <i>uire monitoring at the workplace:</i> nt quantities of materials with critical values that have to be monitored at the workplace.
Exposure controls Personal protective equipment General protective and hygienic meas The usual precautionary measures for ha Maintain an ergonomically appropriate w Breathing equipment: Not required. Use suitable respiratory protective device Recommended filter device for short t Use a respirator with type N95 (USA) or purifying respirators are appropriate. On Protection of hands: Not required. Material of gloves Nitrile rubber, NBR Penetration time of glove material (in	andling chemicals should be followed. orking environment. e in case of insufficient ventilation. erm use: PE (EN 143) cartridges as a backup to engineering controls. Risk assessment should be performed to determine if air- ly use equipment tested and approved under appropriate government standards.
Glove thickness: 0.11 mm Eye protection: Safety glasses with side Body protection: Protective work clothin	e shields / NIOSH (US) or EN 166(EU)
9 Physical and chemical properties	
Information on basic physical and che General Information Appearance: Form: Odor: Odor:	Solid in various forms Odorless
Odor threshold: pH-value:	Not determined. Not applicable.
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start: Flammability (solid, gaseous) Ignition temperature: Decomposition temperature: Auto igniting:	Not determined Not determined Not determined Not determined. 343 °C (649 °F) Not determined Not determined.
Danger of explosion: Explosion limits: Lower: Upper: Vapor pressure: Density at 20 °C (68 °F): Relative density Vapor density Evaporation rate	Not determined. Not determined Not determined Not applicable. 0.91-0.98 g/cm ³ (7.594-8.178 lbs/gal) Not determined. Not applicable. Not applicable.
Solubility in / Miscibility with Water: Partition coefficient (n-octanol/water): Viscosity: dynamic: kinematic: Other information	Insoluble Not determined. Not applicable. Not applicable. No further relevant information available.
10 Stability and reactivity Reactivity No information known. Chemical stability Stable under recomm	nended storage conditions

Reactivity No information known. Chemical stability Stable under recommended storage conditions. Thermal decomposition / conditions to be avoided: Decomposition will not occur if used and stored according to specifications. Possibility of hazardous reactions Reacts with strong oxidizing agents Conditions to avoid No further relevant information available. Incompatible materials: Oxidizing agents Hazardous decomposition products: Carbon monoxide and carbon dioxide

11 Toxicological information	
Information on toxicological effects	
Reproductive toxicity: No effects known.	
Specific target organ system toxicity - repeated exposu	ire: No effects known.
Specific target organ system toxicity - single exposure:	: No effects known.
Aspiration hazard: No effects known. Subacute to chronic toxicity: No effects known. Additional toxicological information: To the best of our k	knowledge the acute and chronic toxicity of this substance is not fully known.
12 Ecological information	
Toxicity Aquatic toxicity: No further relevant information available. Persistence and degradability No further relevant information Bioaccumulative potential No further relevant information Mobility in soil No further relevant information available. Additional ecological information: General notes: Do not allow material to be released to the environment with Avoid transfer into the environment. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.	ation available. available. hout proper governmental permits.
Other adverse effects No further relevant information avail	ilable.
