

1 Identification Product identifier Product name: Chlorocyclopentan Stock number: B25023, L05592 **CAS Number:** 930-28-9 EC number: Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet Manufacturer/Supplier: Manufacturer/supplier. Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. 30 Bond Street Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com Information Department: Health, Safety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789. 2 Hazard(s) identification Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS) \* GHS02 Flame Flam. Liq. 2 H225 Highly flammable liquid and vapor. Hazards not otherwise classified No information known. Label elements GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms GHS02 Signal word Danger Hazard statements H225 Highly flammable liquid and vapor. Precautionary statements 

 P210
 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

 P280
 Wear protective gloves/protective clothing/eye protection/face protection.

 P240
 Ground/bond container and receiving equipment.

 P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

 P403+P235
 Store in a well-ventilated place. Keep cool.

 P501
 Dispose of context input in generation on the context input in generation of context input in generation of the context input in generating the context input in generation of the context input in generat Dispose of contents/container in accordance with local/regional/national/international regulations. WHMIS classification B2 - Flammable liquid \* Classification system (Hazardous Materials Identification System) 1 
Health (acute effects) = 1

RE
Image: Second state Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. 3 Composition/information on ingredients Chemical characterization: Substances CAS# Description: 8-9 Chlorocyclopentan Identification number(s): EC number: 213-212-5 4 First-aid measures Description of first aid measures After inhalation Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice. After eye contact Rinse opened eye for several minutes under running water. Then consult a doctor. After swallowing Seek medical treatment. (Contd. on page 2) Product name: Chlorocyclopentan

(Contd. on page 3)

## (Contd. of page 1) Information for doctor Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. 5 Fire-fighting measures Extinguishing media Suitable extinguishing agents Carbon dioxide, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Hydrogen chloride (HCI) Advice for fireficture Advice for firefighters Protective equipment: Wear self-contained respirator. Wear fully protective impervious suit. 6 Accidental release measures Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow material to be released to the environment without proper governmental permits. Methods and material for containment and cleaning up: Keep away from ignition sources. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation. Prevention of secondary hazards: Keep away from ignition sources. Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: Protect against electrostatic charges. Fumes can combine with air to form an explosive mixture. Keep ignition sources away. Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: Store in a cool location. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers. **Specific end use(s)** No further relevant information available. 8 Exposure controls/personal protection Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Components with limit values that require monitoring at the workplace: Not required. Additional information: No data Exposure controls Personal protective equipment rersonal protective equipment General protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Remove all soiled and contaminated clothing immediately. Wash hands before breaks and at the end of work. Maintain an ergonomically appropriate working environment. Breathing equipment: Use suitable respirator when high concentrations are present. Protection of hands: Impervious gloves Check protective gloves prior to each use for their proper condition Check protective gloves prior to each use for their proper condition. The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer. Penetration time of glove material (in minutes) Not determined Eye protection: Safety glasses Body protection: Protective work clothing. 9 Physical and chemical properties Information on basic physical and chemical properties General Information Appearance: Form: Color: Liquid Colorless Odor: Not determined Odor threshold: Not determined pH-value: Not determined. Change in condition -94 °C (-137 °F) 113-114 °C (235-237 °F) Melting point/Melting range: Boiling point/Boiling range:

## Product name: Chlorocyclopentan

0 Stability and reactivity			
Reactivity No information known.	mandad atorada conditiona		
Chemical stability Stable under record Thermal decomposition / conditions	to be avoided: Decompositio	n will not occur if used and stored according to specifications.	
Possibility of hazardous reactions N Conditions to avoid No further releva	lo dangerous reactions known	<b>-</b> <i>i</i>	
Incompatible materials: Oxidizing age Hazardous decomposition products	ents		
Carbon monoxide and carbon dioxide			
Hydrogen chloride (HCl)			
1 Toxicological information			
Information on toxicological effects			
Acute toxicity: No effects known. LD/LC50 values that are relevant for	classification: No data		
Skin irritation or corrosion: May cau	se irritation		
Eye irritation or corrosion: May caus Sensitization: No sensitizing effects k	nown.		
Germ cell mutagenicity: No effects ki	nown.	f this motorial is subjected from the ERA JARC NTR OSHA or ACCIL	
Reproductive toxicity: No effects kno	wn.	f this material is available from the EPA, IARC, NTP, OSHA or ACGIH.	
Specific target organ system toxicit Specific target organ system toxicit	/ - repeated exposure: No effect	ects known.	
Aspiration hazard: No effects known.		s niowi.	
Subacute to chronic toxicity: No effe Additional toxicological information	cts known. : To the best of our knowledge	the acute and chronic toxicity of this substance is not fully known.	
2 Ecological information			
Toxicity			
Aquatic toxicity: No further relevant in	formation available.		
Persistence and degradability No fun Bioaccumulative potential No further	ther relevant information availate relevant information available.	able.	
Mobility in soil No further relevant info			
Additional ecological information: General notes:			
Do not allow material to be released to Do not allow undiluted product or large	the environment without prope	er governmental permits. ter, water course or sewage system	
Avoid transfer into the environment.	1 6	ion, water oodroo er oowage byotern.	
Results of PBT and vPvB assessme PBT: Not applicable.	nt		
vPvB: Not applicable. Other adverse effects No further relevant	ant information available.		
13 Disposal considerations Waste treatment methods			
Recommendation Consult state, local	or national regulations to ensu	ıre proper disposal.	
Uncleaned packagings: Recommendation: Disposal must be l	made according to official requ	lations
