

3-BROMOTHIOPHENE-2-CARBONYL CHLORIDE

Page: 1

Compilation date: 01/10/2013

Revision No: 1

## Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name: 3-BROMOTHIOPHENE-2-CARBONYL CHLORIDE

**CAS number:** 25796-68-3

Product code: OR29209

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

# 1.3. Details of the supplier of the safety data sheet

Company name:	: Apollo Scientific Ltd	
	Units 3 & 4	
	Parkway	
	Denton	
	Manchester	
	M34 3SG	
	UK	
Tel:	0161 337 9971	
Fax:	0161 336 6932	
Email:	david.tideswell@apolloscientific.co.uk	

## 1.4. Emergency telephone number

## Section 2: Hazards identification

# 2.1. Classification of the substance or mixture

Classification under CHIP:	Xn: R20/21/22; C: R34
Classification under CLP:	Acute Tox. 4: H302+312+332; Skin Corr. 1B: H314
Most important adverse effects:	Harmful by inhalation, in contact with skin and if swallowed. Causes burns.
2.2. Label elements	

Label elements under CLP:

**Hazard statements:** H302+312+332: Harmful if swallowed, in contact with skin or if inhaled.

H314: Causes severe skin burns and eye damage.

Signal words: Danger

Hazard pictograms: GHS05: Corrosion

GHS07: Exclamation mark

Precautionary statements: P280: Wear protective gloves/protective clothing/eye protection/face protection.

P309+311: IF exposed or if you feel unwell: Call a POISON CENTER or doctor.

#### 3-BROMOTHIOPHENE-2-CARBONYL CHLORIDE

Page: 2

Label elements under CHIP:

Hazard symbols: Corrosive.

Risk phrases: R20/21/22: Harmful by inhalation, in contact with skin and if swallowed.

R34: Causes burns.

## 2.3. Other hazards

**PBT:** This substance is not identified as a PBT substance.

## Section 3: Composition/information on ingredients

3.1. Substances

## Chemical identity: 3-BROMOTHIOPHENE-2-CARBONYL CHLORIDE

Section 4: First aid measures

4.1. Description of first aid measures	

Skin contact:	Remove all contaminated clothes and footwear immediately unless stuck to skin.
	Drench the affected skin with running water for 10 minutes or longer if substance is still
	on skin. Transfer to hospital if there are burns or symptoms of poisoning.
Eye contact:	Bathe the eye with running water for 15 minutes. Transfer to hospital for specialist
	examination.
Ingestion:	Wash out mouth with water. Do not induce vomiting. Give 1 cup of water to drink every 10
	minutes. If unconscious, check for breathing and apply artificial respiration if necessary.
	If unconscious and breathing is OK, place in the recovery position. Transfer to hospital
	as soon as possible.
Inhalation:	Remove casualty from exposure ensuring one's own safety whilst doing so. If
	unconscious and breathing is OK, place in the recovery position. If conscious, ensure
	the casualty sits or lies down. If breathing becomes bubbly, have the casualty sit and
	provide oxygen if available. Transfer to hospital as soon as possible.
4.2. Most important symptoms and effects, both acute and delayed	
Skin contact:	Blistering may occur. Progressive ulceration will occur if treatment is not immediate.

- Eye contact: Corneal burns may occur. May cause permanent damage.
  - **Ingestion:** Corrosive burns may appear around the lips. Blood may be vomited. There may be bleeding from the mouth or nose.
  - Inhalation: There may be shortness of breath with a burning sensation in the throat. Exposure may cause coughing or wheezing.
- 4.3. Indication of any immediate medical attention and special treatment needed

# 3-BROMOTHIOPHENE-2-CARBONYL CHLORIDE

**Page:** 3

7.1. Precautions for safe handling	on 5: Fire-fighting measure	es
surrounding fire should be used. Use water spray to cool containers.         5.2. Spectal hazards arising from the substance or mixture         Exposure hazards:       Corrosive. In combustion emits toxic fumes of carbon dioxide / carbon monoxide. Hydrogen bromide (HBr). Sulphur oxides (SOx). Hydrogen chloride (HCl).         5.3. Advice for fire-fighters:       Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.         section 6: Accidental release measures       6.1. Personal precautions, protective equipment and emergency procedures         Personal precautions:       Notify the police and fire brigade immediately. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Do not create dust.         6.2. Environmental precautions:       Do not discharge into drains or rivers.         6.3. Methods and material for containment and cleaning up       Clean-up procedures:         Clean-up procedures:       Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method.         6.4. Reference to other sections       Exposure to a section 5 for safe handling	Extinguishing media	
surrounding fire should be used. Use water spray to cool containers.         5.2. Special hazards arising from the substance or mixture         Exposure hazards:       Corrosive. In combustion emits toxic fumes of carbon dioxide / carbon monoxide. Hydrogen bromide (HBr). Sulphur oxides (SOx). Hydrogen chloride (HCl).         5.3. Advice for fire-fighters:       Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.         ection 6: Accidental release measures       6.1. Personal precautions, protective equipment and emergency procedures         Personal precautions:       Notify the police and fire brigade immediately. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. # 7.3. Specific end use(s) Specific end use(s): No data available. Section 8: Exposure controls/personal protection 8.1. Control parameters Workplace exposure limits: No data available. 8.2. Exposure controls Engineering measures: Ensure there is sufficient ventilation of the area. Respiratory protection: Self-contained breathing apparatus must be available in case of emergency. Respiratory protective device with particle filter. Hand protection: Protective gloves. Eye protection: Tightly fitting safety goggles. Ensure eye bath is to hand. Skin protection: Protective clothing. Section 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties State: Low-melting solid. Melting point/range °C: 27-29 9.2. Other information

Other information: No data available.

## Section 10: Stability and reactivity

10.1. Reactivity

Reactivity: Stable under recommended transport or storage conditions.

10.2. Chemical stability

Chemical stability: Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions.

10.4. Conditions to avoid

Conditions to avoid: Heat. Light.

10.5. Incompatible materials

Materials to avoid: Strong oxidising agents. Strong acids.

## 10.6. Hazardous decomposition products

Haz. decomp. products: In combustion emits toxic fumes of carbon dioxide / carbon monoxide. Hydrogen

bromide gas (HBr). Sulphur oxides (SOx) Hydrogen chloride (HCl).

#### 3-BROMOTHIOPHENE-2-CARBONYL CHLORIDE

**Page:** 5

#### Section 11: Toxicological information

#### 11.1. Information on toxicological effects

#### Relevant hazards for substance:

Hazard	Route	Basis
Acute toxicity (ac. tox. 4)	INH DRM ING	Based on test data
Skin corrosion/irritation	DRM	Based on test data
Serious eye damage/irritation	OPT	Based on test data

#### Symptoms / routes of exposure

Skin contact: Blistering may occur. Progressive ulceration will occur if treatment is not immediate.

Eye contact: Corneal burns may occur. May cause permanent damage.

**Ingestion:** Corrosive burns may appear around the lips. Blood may be vomited. There may be bleeding from the mouth or nose.

**Inhalation:** There may be shortness of breath with a burning sensation in the throat. Exposure may cause coughing or wheezing.

## Section 12: Ecological information

## 12.1. Toxicity

Ecotoxicity values: No data available.

12.2. Persistence and degradability

Persistence and degradability: No data available.

12.3. Bioaccumulative potential

Bioaccumulative potential: No data available.

12.4. Mobility in soil

Mobility: No data available.

## 12.5. Results of PBT and vPvB assessment

PBT identification: This substance is not identified as a PBT substance.

12.6. Other adverse effects

Other adverse effects: No data available.

#### Section 13: Disposal considerations

Disposal operations:	MATERIAL SHOULD BE DISPOSED OF IN ACCORDANCE WITH LOCAL, STATE AND
	FEDERAL REGULATIONS
Disposal of packaging:	Dispose of as special waste in compliance with local and national regulations Observe
	all federal, state and local environmental regulations.
NB:	The user's attention is drawn to the possible existence of regional or national
	regulations regarding disposal.
	all federal, state and local environmental regulations. The user's attention is drawn to the possible existence of regional or national
