

4-AMINO-1-METHYLPIPERIDINE

Page: 1

Compilation date: 27/02/2007

Revision date: 15/08/2017

Revision No: 4

### Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name: 4-AMINO-1-METHYLPIPERIDINE

CAS number: 41838-46-4

Product code: OR6512

1.2. Relevant identified uses of the substance or mixture and uses advised against

### 1.3. Details of the supplier of the safety data sheet

Company name: Apollo Scientific Ltd Units 3 & 4 Parkway Denton Manchester M34 3SG UK Tel: 0161 337 9971 Fax: 0161 336 6932 Email: david.tideswell@apolloscientific.co.uk

### 1.4. Emergency telephone number

# Section 2: Hazards identification

#### 2.1. Classification of the substance or mixture

Classification under CLP: Skin Corr. 1B: H314; Flam. Liq. 3: H226; Eye Dam. 1: H318

Most important adverse effects: Flammable liquid and vapour. Causes severe skin burns and eye damage.

### 2.2. Label elements

Label elements:

Hazard statements: H226: Flammable liquid and vapour.

H314: Causes severe skin burns and eye damage.

Signal words: Danger

Hazard pictograms: GHS05: Corrosion

Precautionary statements: P260: Do not breathe vapours.

P271: Use only outdoors or in a well-ventilated area.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

### 4-AMINO-1-METHYLPIPERIDINE

# 2.3. Other hazards

## Other hazards: Combustible (H227)

#### **PBT:** This product is not identified as a PBT/vPvB substance.

### Section 3: Composition/information on ingredients

# 3.1. Substances

### Chemical identity: 4-AMINO-1-METHYLPIPERIDINE

**CAS number:** 41838-46-4

## Section 4: First aid measures

4.1. Description of first aid mea	asures
Skin contact:	Remove all contaminated clothes and footwear immediately unless stuck to skin.
	Drench the affected skin with running water for 10 minutes or longer if substance is still
	on skin. Transfer to hospital if there are burns or symptoms of poisoning.
Eve contact:	Bathe the eye with running water for 15 minutes. Transfer to hospital for specialist
	examination.
Indestion:	Wash out mouth with water. Do not induce vomiting. Give 1 cup of water to drink every 10
ingestion	minutes. If unconscious, check for breathing and apply artificial respiration if necessary.
	If unconscious and breathing is OK, place in the recovery position. Transfer to hospital
	as soon as possible.
Inhalation:	Remove casualty from exposure ensuring one's own safety whilst doing so. If
	unconscious and breathing is OK, place in the recovery position. If conscious, ensure
	the casualty sits or lies down. If breathing becomes bubbly, have the casualty sit and
	provide oxygen if available. Transfer to hospital as soon as possible.
4.2. Most important symptoms	and effects, both acute and delayed
Skin contact:	Blistering may occur. Progressive ulceration will occur if treatment is not immediate.
	Corneal burns may occur. May cause permanent damage.
-	Corrosive burns may appear around the lips. Blood may be vomited. There may be
ingestion.	
	bleeding from the mouth or nose.
Inhalation:	There may be shortness of breath with a burning sensation in the throat. Exposure may

cause coughing or wheezing.

### 4.3. Indication of any immediate medical attention and special treatment needed

# Section 5: Fire-fighting measures

### 5.1. Extinguishing media

Extinguishing media: Carbon dioxide, dry chemical powder, foam. Suitable extinguishing media for the

surrounding fire should be used. Use water spray to cool containers.

### 4-AMINO-1-METHYLPIPERIDINE

#### 5.2. Special hazards arising from the substance or mixture

Exposure hazards: Corrosive. In combustion emits toxic fumes. Nitrogen oxides (NOx).

## 5.3. Advice for fire-fighters

Advice for fire-fighters: Wear self-contained breathing apparatus. Wear protective clothing to prevent contact

with skin and eyes.

### Section 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions:** Notify the police and fire brigade immediately. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Do not create dust.

#### 6.2. Environmental precautions

Environmental precautions: Do not discharge into drains or rivers.

#### 6.3. Methods and material for containment and cleaning up

**Clean-up procedures:** Clean-up should be dealt with only by qualified personnel familiar with the specific substance. Transfer to a closable, labelled salvage container for disposal by an appropriate method.

6.4. Reference to other sections

## Section 7: Handling and storage

### 7.1. Precautions for safe handling

Handling requirements: Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area. Do not handle in a confined space. Avoid the formation or spread of dust in the air. Only use in fume hood.

#### 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Store in a cool, well ventilated area. Keep container tightly closed. Air sensitive. Store under Argon. Recommended storage temp 2-8 ℃.
Suitable packaging: Must only be kept in original packaging.

#### 7.3. Specific end use(s)

Specific end use(s): No data available.

## Section 8: Exposure controls/personal protection

8.1. Control parameters

Workplace exposure limits: No data available.

### 4-AMINO-1-METHYLPIPERIDINE

DNEL/PNEC Values				
DNEL / PNEC	No data available.			
8.2. Exposure controls				
Engineering measures:	Ensure there is sufficient ventilation	of the area.		
Respiratory protection:	Self-contained breathing apparatus must be available in case of emergency. Respiratory			
	protective device with particle filter.			
Hand protection:	Protective gloves.			
Eye protection:	Tightly fitting safety goggles. Ensure	e eye bath is to hand.		
Skin protection:	Protective clothing.			
Section 9: Physical and chemi	cal properties			
9.1. Information on basic physic	cal and chemical properties			
	Liquid			
Evaporation rate:				
•	No data available.			
Solubility in water:				
-	No data available.			
Boiling point/range ℃:	83@40mmHg	Melting point/range℃:	No data available.	
Flammability limits %: lower:	No data available.	upper:	No data available.	
Flash point ℃:	No data available.	Part.coeff. n-octanol/water:	No data available.	

-	
Autoflammability°C:	No data available.
Relative density:	0.91
VOC g/I:	No data available.

# 9.2. Other information

Other information: No data available.

# Section 10: Stability and reactivity

# 10.1. Reactivity

Reactivity: Stable under recommended transport or storage conditions.

# 10.2. Chemical stability

Chemical stability: Stable under normal conditions.

# 10.3. Possibility of hazardous reactions

Hazardous reactions: Hazardous reactions will not occur under normal transport or storage conditions.

# 10.4. Conditions to avoid

Conditions to avoid: Heat. Air.

Vapour pressure: No data available.

pH: No data available.

### 4-AMINO-1-METHYLPIPERIDINE

#### 10.5. Incompatible materials

Materials to avoid: Strong oxidising agents. Strong acids.

### 10.6. Hazardous decomposition products

Haz. decomp. products: In combustion emits toxic fumes of carbon dioxide / carbon monoxide. Nitrogen oxides

(NOx).

## Section 11: Toxicological information

### 11.1. Information on toxicological effects

#### Relevant hazards for product:

Hazard	Route	Basis
Skin corrosion/irritation	DRM	Hazardous: calculated
Serious eye damage/irritation	OPT	Hazardous: calculated

### Symptoms / routes of exposure

Skin contact: Blistering may occur. Progressive ulceration will occur if treatment is not immediate.

Eye contact: Corneal burns may occur. May cause permanent damage.

**Ingestion:** Corrosive burns may appear around the lips. Blood may be vomited. There may be bleeding from the mouth or nose.

**Inhalation:** There may be shortness of breath with a burning sensation in the throat. Exposure may cause coughing or wheezing.

#### Section 12: Ecological information

12.1. Toxicity

Ecotoxicity values: No data available.

12.2. Persistence and degradability

Persistence and degradability: No data available.

12.3. Bioaccumulative potential

Bioaccumulative potential: No data available.

12.4. Mobility in soil

Mobility: No data available.

12.5. Results of PBT and vPvB assessment

**PBT identification:** This product is not identified as a PBT/vPvB substance.

12.6. Other adverse effects

Other adverse effects: No data available.

#### Section 13: Disposal considerations

# 4-AMINO-1-METHYLPIPERIDINE

		Page:
13.1. Waste treatment methods		
Disposal operations:	Transfer to a suitable container and arrange for collection by specialised disposal	
	company. MATERIAL SHOULD BE DISPOSED OF IN ACCORDANCE WITH LOCAL,	
	STATE AND FEDERAL REGULATIONS	
Disposal of packaging:	Dispose of as special waste in compliance with local and national regulations Observe	
	all federal, state and local environmental regulations.	
NB:	The user's attention is drawn to the possible existence of regional or national	
	regulations regarding disposal.	
ection 14: Transport information	ion	
14.1. UN number		
UN number:	UN1760	
14.2. UN proper shipping name		
Shipping name:	CORROSIVE LIQUID, N.O.S.	
	(4-Amino-1-methylpiperidine)	
14.3. Transport hazard class(es	3)	
Transport class:	8	
14.4. Packing group		
Packing group:	III	
14.5. Environmental hazards		
Environmentally hazardous:	No Marine pollutant: No	
14.6. Special precautions for u	ser	
Tunnel code:	E	
Transport category:	3	
ection 15: Regulatory information		
	nmental regulations/legislation specific for the substance or mixture	
15.2. Chemical Safety Assessn		
Chemical safety assessment:	A chemical safety assessment has not been carried out for the substance or the mixture	
	by the supplier.	
ection 16: Other information		
Other information		
Other information:	This safety data sheet is prepared in accordance with Commission Regulation (EU) No	
	2015/830.	
	* Data predicted using computational software. The OECD QSAR-Toolbox for grouping	
	Data produced using computational software. The OLOD QOALT TOODON for grouping	

chemicals into categories. Developed by LMC bulgaria.
