Safety data sheet

according to Regulation (EC) No. 1907/2006

Version number 1

Revision: 19.12.2011

## Trade name: Antipain dihydrochloride ≥30 U/mg, for biochemistry (Contd. of page 1) · After swallowing: Rinse out mouth and drink a glass of water. Do not induce vomiting. If there is any trouble seek medical help. · Information for doctor: • Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available. **5** Firefighting measures · Extinguishing media · Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. Water spray Carbon dioxide Special hazards arising from the substance or mixture In case of fire, the following can be released: Nitrogen oxides (NOx) · Advice for firefighters Protective equipment: Wear self-contained respiratory protective device. Wear fully protective suit. **6** Accidental release measures • Personal precautions, protective equipment and emergency procedures Avoid formation of dust. • Environmental precautions: Do not allow to enter sewers/ground water or penetrate the soil. · Methods and material for containment and cleaning up: Pick up mechanically. Dispose of the material collected according to regulations. Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 7 Handling and storage · Handling: • Precautions for safe handling Handling corresponding to laboratory safety guidelines. · Information about fire - and explosion protection: No special measures required. · Conditions for safe storage, including any incompatibilities · Storage: • **Requirements to be met by storerooms and receptacles:** No special requirements. · Information about storage in one common storage facility: Store away from foodstuffs. • Further information about storage conditions: Store receptacle in a well ventilated area. · Recommended storage temperature: -20 °C • Specific end use(s) No further relevant information available. 8 Exposure controls/personal protection • Additional information about design of technical facilities: No further data; see item 7. · Control parameters · Ingredients with limit values that require monitoring at the workplace: Not required.

• Additional information: The lists valid during the making were used as basis.

Safety data sheet according to Regulation (EC) No. 1907/2006

(Contd. of page 2)

· Exposure controls · Personal protective equipment: General protective and hygienic measures: Do not eat, drink or smoke while working. Do not breathe dust. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. • **Respiratory protection:** Required when dusts are generated. Protection of hands: Due to missing tests no recommendation to the glove material can be given for the product. Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. Eye protection: Tightly sealed goggles · Body protection: Protective work clothing **9** Physical and chemical properties · Information on basic physical and chemical properties · General Information · Appearance: Form: Solid **Colour:** white to yellowish · Odour: Odourless Odour threshold: Not determined. · pH-value: Not applicable. · Change in condition 209-217°C (dec.) Melting point/Melting range: Undetermined. **Boiling point/Boiling range:** · Flash point: Not applicable. · Flammability (solid, gaseous): Product is not flammable. · Ignition temperature: **Decomposition temperature:** Not determined. · Self-igniting: Not determined. · Danger of explosion: Product does not present an explosion hazard. • Explosion limits: Not determined. Lower: Not determined. Upper: (Contd. on page 4)
