### **General advice**

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

### If inhaled

If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician.

### In case of skin contact

Wash off with soap and plenty of water. Consult a physician.

### In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

### If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

# 5. FIRE-FIGHTING MEASURES

### **Flammable properties**

Flash point

88 °C (190 °F) - closed cup

Ignition temperature no data available

# Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

### Special protective equipment for fire-fighters

Wear self contained breathing apparatus for fire fighting if necessary.

# 6. ACCIDENTAL RELEASE MEASURES

### **Personal precautions**

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation.

### Environmental precautions

Do not let product enter drains.

### Methods for cleaning up

Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

# 7. HANDLING AND STORAGE

### Handling

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge.

### Storage

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Contains no substances with occupational exposure limit values.

### Personal protective equipment

### **Respiratory protection**

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

# Hand protection

Handle with gloves.

Eye protection Safety glasses

### Skin and body protection

Choose body protection according to the amount and concentration of the dangerous substance at the work place.

### Hygiene measures

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

### Appearance

| Form                  | clear, liquid                     |
|-----------------------|-----------------------------------|
| Colour                | colourless                        |
| Safety data           |                                   |
| рН                    | no data available                 |
| Melting point         | no data available                 |
| Boiling point         | 92 °C (198 °F) at 11 hPa (8 mmHg) |
| Flash point           | 88 °C (190 °F) - closed cup       |
| Ignition temperature  | no data available                 |
| Lower explosion limit | no data available                 |
| Upper explosion limit | no data available                 |
| Density               | 1.009 g/mL at 25 °C (77 °F)       |
| Water solubility      | no data available                 |

# **10. STABILITY AND REACTIVITY**

### Storage stability

Stable under recommended storage conditions.

### Materials to avoid Strong bases

Hazardous decomposition products Hazardous decomposition products formed under fire conditions. - nitrogen oxides (NOx)

# 11. TOXICOLOGICAL INFORMATION

### Acute toxicity

LD50 Intravenous - mouse - 56 mg/kg

# Irritation and corrosion

no data available

### Sensitisation

no data available

### Chronic exposure

- IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.
- NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

### Signs and Symptoms of Exposure

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

### **Potential Health Effects**

| Inhalation | May be harmful if inhaled. Causes respiratory tract irritation.  |
|------------|--|
| Skin       | May be harmful if absorbed through skin. Causes skin irritation. |
| Eyes       | Causes eye irritation.   |
| Ingestion  | May be harmful if swallowed.                                     |

#### Additional Information RTECS: NS1450000

### **12. ECOLOGICAL INFORMATION**

### Elimination information (persistence and degradability)

no data available

### **Ecotoxicity effects**

no data available

### Further information on ecology

no data available

# **13. DISPOSAL CONSIDERATIONS**

#### Product

This combustible material may be burned in a chemical incinerator equipped with an afterburner and scrubber. Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material.

### Contaminated packaging

Dispose of as unused product.

# **14. TRANSPORT INFORMATION**

#### DOT (US)

UN-Number: 1993 Class: CBL Packing group: III Proper shipping name: Combustible liquid, n.o.s. (Ethyl isonicotinate) Marine pollutant: No Poison Inhalation Hazard: No

### IMDG

Not dangerous goods
