

Revision number: 2 Revision date: 10/06/2014

1. IDENTIFICATION

Product name: Product code: Tamsulosin Hydrochloride T2749

For laboratory research purposes.

Not for drug or household use.

Product use: Restrictions on use:

Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Harmful if swallowed

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection.

If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: Substance Tamsulosin Hydrochloride >98.0%(HPLC)(T)

Emergency telephone number:

TCI AMERICA

3. COMPOSITION/INFORMATIO	N ON INGREDIENTS	
CAS Number:	106463-17-6	
Molecular Weight:	444.97	
Chemical Formula:	C20H28N2O5S+HCI	
Synonyms:	5-[(R)-2-[2-(2-Ethoxyphenoxy)ethylamino]propyl]]-2-methoxybenzenesulfor	namide Hydrochloride
4. FIRST-AID MEASURES		
Inhalation: Skin contact:	Call a poison center or doctor if you feel unwell. Move victim to fresh air. G is not breathing. Administer oxygen if breathing is difficult. Keep victim war symptomatically and supportively. Ensure that medical personnel are awar take precautions to protect themselves. Call a poison center or doctor if you feel unwell. Remove and wash contan	rm and quiet. Treat re of the material(s) involved and ninated clothing before re-use.
Eye contact:	Remove and isolate contaminated clothing and shoes. In case of contact of flush skin with running water for at least 20 minutes. Treat symptomatically medical personnel are aware of the material(s) involved and take precaution IMMEDIATELY flush eyes with running water for at least 15 minutes, keep material may irritate or burn eyes. Call emergency medical service. Move	y and supportively. Ensure that ons to protect themselves. bing eyelids open. Contact with victim to fresh air. Check for and
Ingestion:	remove any contact lenses. Keep victim warm and quiet. Treat symptomate exposure to substance may be delayed. Ensure that medical personnel and involved and take precautions to protect themselves. Harmful if swallowed. Do not induce vomiting with out medical advice. If sw immediately and show the container or label. Do not use mouth-to-mouth in substance; give artificial respiration with the aid of a pocket mask equipper proper respiratory medical device. Loosen tight clothing such as a collar, the vomits place them in the recovery position so that vomit will not reenter the Keep victim warm and quiet. Treat symptomatically and supportively. Ensu- aware of the material(s) involved and take precautions to protect themselv	e aware of the material(s) wallowed, seek medical advice method if victim ingested the d with a one-way valve or other ie, belt or waistband. If a person e mouth and throat. Rinse mouth. ure that medical personnel are
Symptoms/effects:		
Acute:	Redness.	
Delayed:	No data available	
Immediate medical attention:	WARNING: It might be hazardous to the person providing aid to give mout the inhaled material is harmful. If breathing has stopped, perform artificial treatment according to the nature of the injury. Ensure that medical person involved and take precautions to protect themselves.	respiration. Use first aid
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, CO ₂ , sand, earth, water spray or regular foam Consult with attempting large scale fire fighting operations.	local fire authorities before
Specific hazards arising from the ch	emical	
Hazardous combustion products: Other specific hazards:	These products include: Carbon oxides Nitrogen oxides Halogenated com WARNING: Highly toxic HCl gas is produced during combustion.	pounds Silicates
Special precautions for fire-fighters: Use water spray or fog; do not use stra heated. Move containers from fire area Special protective equipment for fire	hight streams. Dike fire-control water for later disposal; do not scatter the material. I if you can do it without risk.	Containers may explode when
	breathing apparatus (SCBA). Structural fire fighters' protective clothing provides li tuations. Wear chemical protective clothing which is specifically recommended by	
6. ACCIDENTAL RELEASE MEA	SURES	
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and up damaged containers or spilled material unless wearing appropriate protect unnecessary personnel to move away. Stop leak if you can do it without ris Isolate the hazard area and deny entry to unnecessary and unprotected pe	tive clothing (Section 8). Warn sk. Ensure adequate ventilation.
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full length face respirator. Be sure to use a MSHA/NIOSH approved respirator or equivale	shield). Lab coat. Dust

respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves

(nitrile). Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

6. ACCIDENTAL RELEASE MEASURES

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:**

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Good general ventilatio should be sufficient to control airborne levels. Keep container dry. Handle and open container with care.
	Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Store away from oxidizing agents

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Very pale yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	230°C (dec.) (446°F) No data available No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log P _{ow})	2.41	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available		No data available its: available available

Solubility(ies):

10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Strong oxidizing agents No data available **TCI AMERICA**

11. TOXICOLOGICAL INFORMATION

RTECS Number: DB2430000

RTECS Number: DB2430000				
Acute Toxicity: orl-rat LD50:650 mg/kg		scu-rat LD50:34	7 mg/kg	
ivn-rat LD50:70 mg/kg				
Skin corrosion/irritation: No data available				
Serious eye damage/irritation: No data available				
Respiratory or skin sensitization: No data available				
Germ cell mutagenicity: No data available				
Carcinogenicity:				
No data available				
IARC: No data available	NTP:	No data available	OSHA:	No data available
Reproductive toxicity: No data available				
Routes of Exposure: Symptoms related to exposure: Overexposure may result in serious illness of blistering. Skin contact may result in rednes Potential Health Effects: Skin and eye contact may result in irritation. Target organ(s):	or death. Skin contac s, pain or dry skin. E		characterized by itchir	ng, scaling, reddening, or occasionally
12. ECOLOGICAL INFORMATION				
Ecotoxicity Fish: Crustacea: Algae:	No data available No data available No data available			
Persistence and degradability: Bioaccumulative potential (BCF): Mobillity in soil: Partition coefficient: n-octanol/water (log Pow) Soil adsorption (Koc): Henry's Law: constant (PaM ³ /mol)	No data available No data available No data available 2.41 No data available No data available			
13. DISPOSAL CONSIDERATIONS				
Disposal of product:	rules and regulation chemical incinerate	ns. You may be able to disso or equipped with an afterburn	olve or mix material wit her and scrubber syste	mply with Federal, State and Local h a combustible solvent and burn in a m. This section is intended to provide accordance with this section ensure

Disposal of container: Other considerations: assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil. Dispose of as unused product. Do not re-use empty containers. Observe all federal, state and local regulations when disposing of the substance. **TCI AMERICA**

14. TRANSPORT INFORMATION

DOT (US)	Non-hazardous for transportation.
	Non-hazardous for transportation.
IMDG	Non-hazardous for transportation.

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

16. OTHER INFORMATION

Revision date: 10/06/2014

Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective gogles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
