

Revision number: 3 Revision date: 10/17/2016

IDENTIFICATION 1.

Product name: Product code:

D0353

Product use: Restrictions on use:

Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Signal word:

Warning!

Hazard Statement(s):

Causes skin irritation Harmful if swallowed

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal]

Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture:

Substance

Emergency telephone number:

Chemical Emergencies: TCI America (8:00am - 5:00pm) PST +1-503-286-7624 Transportation Emergencies: Chemtrec 24-Hour +1-800-424-9300 (U.S.A.) +1-703-527-3887 (International) **Responsible department: TCI** America Environmental Health Safety and Security +1-503-286-7624

Causes serious eye irritation Toxic to aquatic life

Acute Toxicity - Oral [Category 4] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A] Aquatic Hazard (Acute) [Category 2]

For laboratory research purposes. Not for drug or household use.

TCI AMERICA

| Common contra. | IN INGREDIENTS | | | |
|---|---|--|--|--|
| Components: | 4,6-Dichloro-o-cresol | | | |
| Percent: | >98.0%(GC) | | | |
| CAS Number: | /eight: 177.02 | | | |
| Iolecular Weight: | | | | |
| Chemical Formula: | | | | |
| Synonyms: | | | | |
| ynonyma. | | | | |
| A. FIRST-AID MEASURES | | | | |
| Inhalation: | Call emergency medical service. Move victim to fresh air. Give artificial respiration if victim is not breathi Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions t protect themselves. | | | |
| Skin contact: | Call a poison center or doctor if you feel unwell. Remove and wash contaminated clothing before re-use. Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that | | | |
| Eye contact: | medical personnel are aware of the material(s) involved and take precautions to protect themselves. IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact with material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for an remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s) | | | |
| Ingestion: | involved and take precautions to protect themselves. Harmful if swallowed. Do not induce vomiting with out medical advice. If swallowed, seek medical advice immediately and show the container or label. Do not use mouth-to-mouth method if victim ingested the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or oth proper respiratory medical device. Loosen tight clothing such as a collar, tie, belt or waistband. If a pers vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mo Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel ar aware of the material(s) involved and take precautions to protect themselves. | | | |
| Symptoms/effects: | | | | |
| Acute: Delayed: | Redness. No data available | | | |
| mmediate medical attention: | WARNING: It might be hazardous to the person providing aid to give mouth-to-mouth respiration, becaus the inhaled material is harmful. If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s involved and take precautions to protect themselves. | | | |
| 5. FIRE-FIGHTING MEASURES | | | | |
| | | | | |
| Suitable extinguishing media: | Dry chemical, CO_2 , sand, earth, water spray or regular foam Consult with local fire authorities before attempting large scale fire fighting operations. | | | |
| pecific hazards arising from the chemi lazardous combustion products: | These products include: Carbon oxides Halogenated compounds | | | |
| Other specific hazards: | WARNING: Highly toxic HCl gas is produced during combustion. | | | |
| · | | | | |
| pecial precautions for fire-fighters: lse water spray or fog; do not use straight eated. Move containers from fire area if y | | | | |
| pecial precautions for fire-fighters: Jse water spray or fog; do not use straight eated. Move containers from fire area if y pecial protective equipment for fire-fig Vear positive pressure self-contained brea | rou can do it without risk. | | | |
| pecial precautions for fire-fighters: Jse water spray or fog; do not use straight eated. Move containers from fire area if y pecial protective equipment for fire-fig Vear positive pressure self-contained brea DNLY; it may not be effective in spill situat | rou can do it without risk. Jhters: athing apparatus (SCBA). Structural fire fighters' protective clothing provides limited protection in fire situatior ions. Wear chemical protective clothing which is specifically recommended by the manufacturer. It may | | | |

| Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch |
|---|
| damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn |
| unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation. |
| Isolate the hazard area and deny entry to unnecessary and unprotected personnel. |
| Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Dust |
| respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves |
| (nitrile). |
| |

6. ACCIDENTAL RELEASE MEASURES Emergency procedures: Provide Action Proceedings

Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. Dike far ahead of spill; use dry sand to contain the flow of material. Ventilate the area.

Environmental precautions:

Keep away from living quarters. Environmental hazard. Do not let product enter drains. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

| 7. HANDLING AND STORAGE | |
|--------------------------------|---|
| Precautions for safe handling: | Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition. |
| Conditions for safe storage: | Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. |
| Storage incompatibilities: | Store away from oxidizing agents |

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment

| Respiratory protection: | Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. |
|---------------------------|---|
| Hand protection: | Wear protective gloves. |
| Eye protection: | Safety glasses. |
| Skin and body protection: | Lab coat. |

9. PHYSICAL AND CHEMICAL PROPERTIES

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

16. OTHER INFORMATION

Revision date: 10/17/2016

Revision number: 3

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
