

#### Revision number: 2 Revision date: 10/06/2014

# 1. IDENTIFICATION

Product name: Product code: 4,6-Diaminoresorcinol Dihydrochloride D1888

For laboratory research purposes.

Not for drug or household use.

**TCI AMERICA** 

SAFETY DATA SHEET

Product use: Restrictions on use:

## Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

# 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A] Germ Cell Mutagenicity [Category 2]

Signal word:

Warning!

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Suspected of causing genetic defects

#### Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing, eye protection and face protection. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. If exposed: Call a poison center or doctor. Store locked up. Dispose of contents and container in accordance with US EPA guidelines for the classification and

determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Substance 4,6-Diaminoresorcinol Dihydrochloride

#### Emergency telephone number:

Chemical Emergencies: TCI America (8:00am - 5:00pm) PST +1-503-286-7624 Transportation Emergencies: Chemtrec 24-Hour +1-800-424-9300 (U.S.A.) +1-703-527-3887 (International) **Responsible department:** TCI America Environmental Health Safety and Security +1- 503-286-7624 **TCI AMERICA** 

3. COMPOSITION/INFORMATION ON INGREDIENTS			
Percent:	>98.0%(N)(T)		
CAS Number:	16523-31-2		
Molecular Weight:	213.06		
Chemical Formula:	$C_6H_8N_2O_2\cdot 2HCI$		
Synonyms:	4,6-Dihydroxy-1,3-phenylenediamine Dihydrochloride		

# 4. FIRST-AID MEASURES

Inhalation: Call a poison center or doctor if you feel unwell. Effects of exposure (inhalation) to substance may be delayed. Inhalation of vapors or contact with substance will result in contamination and potential harm effects. Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure tha	if
Skin contact: medical personnel are aware of the material(s) involved and take precautions to protect themselves. Call a poison center or doctor if you feel unwell. Effects of exposure (skin contact) to substance may l	
delayed. Remove and wash contaminated clothing before re-use. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportive Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.	
Eye contact: IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact we material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effective exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.	and
Ingestion: Do not induce vomiting with out medical advice. Effects of exposure (ingestion) to substance may be delayed. If swallowed, seek medical advice immediately and show the container or label. Do not use mouth-to-mouth method if victim ingested the substance; give artificial respiration with the aid of a po mask equipped with a one-way valve or other proper respiratory medical device. Loosen tight clothing as a collar, tie, belt or waistband. If a person vomits place them in the recovery position so that vomit not reenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat symptomatically an supportively. Ensure that medical personnel are aware of the material(s) involved and take precaution protect themselves.	such vill d
Symptoms/effects:	
Acute:Redness.Delayed:May cause heritable genetic damage in humans.	
Immediate medical attention: CAUTION: Victim may be a source of contamination. If breathing has stopped, perform artificial respine Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware material(s) involved and take precautions to protect themselves.	
5. FIRE-FIGHTING MEASURES	
Suitable extinguishing media: Dry chemical, CO <sub>2</sub> , water spray, or alcohol-resistant foam. Consult with local fire authorities before attempting large scale fire fighting operations.	
Specific hazards arising from the chemical	
Hazardous combustion products:These products include: Carbon oxides Nitrogen oxides Halogenated compoundsOther specific hazards:WARNING: Highly toxic HCl gas is produced during combustion.	
Special precautions for fire-fighters: Use water spray or fog; do not use straight streams. Dike fire-control water for later disposal; do not scatter the material. Containers may explode w heated. Move containers from fire area if you can do it without risk.	nen
Special protective equipment for fire-fighters: Wear positive pressure self-contained breathing apparatus (SCBA). Structural fire fighters' protective clothing provides limited protection in fire situations. Wear chemical protective clothing which is specifically recommended by the manufacturer. It may provide little or no thermal protection.	tions
6. ACCIDENTAL RELEASE MEASURES	

Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full length face shield). Wear protective clothing (chemical resistant suit and chemical resistant boots). Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).

**Emergency procedures:** 

# 6. ACCIDENTAL RELEASE MEASURES

Prevent dust cloud. Do not clean-up or dispose except under supervision of a specialist. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

#### Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

# 7. HANDLING AND STORAGE

Precautions for safe handling:	Avoid inhalation of vapor or mist. Manipulate under an adequate fume hood. Avoid contact with skin and eyes. Avoid contact - obtain special instructions before use. Avoid prolonged or repeated exposure. Normal measures for preventive fire protection. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition.
Conditions for safe storage:	Store locked up. Keep containers tightly closed in a cool, well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. Store under inert gas (e.g. Argon).
Storage incompatibilities:	Store away from oxidizing agents
8. EXPOSURE CONTROLS / PER	RSONAL PROTECTION

Exposure limits:

No data available

#### Appropriate engineering controls:

Handle only in a fully enclosed system and equipment. Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

#### Personal protective equipment

Respiratory protection:Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.Hand protection:Wear protective gloves.Eye protection:Safety glasses.Skin and body protection:Wear protective clothing (chemical resistant suit and chemical resistant boots).

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color:	I state (20°C): Solid Crystal - Powder White - Slightly pale reddish yellow				
Odor:	No data available				
Odor threshold:	No data available				
	No. data ang Makin			Nie dete evelletete	
Melting point/freezing point:	No data available	pH:		No data available	
Boiling point/range:	No data available	Vapor pressure:		No data available	
Decomposition temperature:	No data available	Vapor density:		No data available	
Relative density:	No data available	Dynamic Viscosity:		No data available	
Kinematic Viscosity:	No data available				
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)		No data available	
Flash point:	No data available	Autoignition temperat	ture:	No data available	
Flammability (solid, gas):	No data available	Flammability or explo Lower:	<b>sive limits:</b> No data availa	able	
		Upper:	No data availa	able	
Solubility(ies): Water: Soluble					

#### 10. STABILITY AND REACTIVITY

10. STABILITY AND REACTIVITY				
Reactivity:	Not Available.			
Chemical Stability:		sensitive. Moisture sensi	tive.	
Possibility of Hazardous Reactions: Conditions to avoid:		ctivity has been reported.	aht. Exposure to moisture	Light sensitive. Moisture sensitive.
Incompatible materials:			proformates, Moisture, Stro	
Hazardous Decomposition Products:	No data available			
11. TOXICOLOGICAL INFORMATION				
TT: TOXICOLOGICAL INI ONMATION	•			
Acute Toxicity: No data available				
Skin corrosion/irritation: No data available				
Serious eye damage/irritation: No data available				
Respiratory or skin sensitization: No data available				
Germ cell mutagenicity:				
No data available				
Carcinogenicity:				
No data available				
IARC: No data available	NTP:	No data available	OSHA:	No data available
<b>Reproductive toxicity:</b> No data available				
Routes of Exposure:	Inhalation, Eve co	ntact, Ingestion, Skin cont	act	
Symptoms related to exposure:		-		
Skin contact may result in inflammation; cha or dry skin. Eye contact may result in redner		, scaling, reddening, or o	ccasionally blistering. Skin	contact may result in redness, pain
Potential Health Effects:	ss of pain.			
Skin and eye contact may result in irritation.				
Target organ(s):	No data available			
12. ECOLOGICAL INFORMATION				
Ecotoxicity				
Fish:	No data available No data available			
Crustacea: Algae:	No data available			
Persistence and degradability:	No data available			
Bioaccumulative potential (BCF):	No data available			
Mobillity in soil:	No data available			
Partition coefficient: n-octanol/water (log Pow)	No data available			
Soil adsorption (Koc):	No data available			
Henry's Law:	No data available			
constant (PaM <sup>3</sup> /mol)				

13. DISPOSAL CONSIDERATIONS	
Disposal of product:	Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil.

**TCI AMERICA** 

13. DISPOSAL CONSIDERATIONS			
Disposal of container:	Dispose of as unused product. Do not re-use empty containers.		
Other considerations:	Observe all federal, state and local regulations when disposing of the substance.		
14. TRANSPORT INFORMATION			
DOT (US)	Non-hazardous for transportation.		
ΙΑΤΑ	Non-hazardous for transportation.		
IMDG	Non-hazardous for transportation.		

# 15. REGULATORY INFORMATION

#### Toxic Substance Control Act (TSCA 8b.):

This product is ON the EPA Toxic Substances Control Act (TSCA) inventory.

#### 16. OTHER INFORMATION

Revision date: 10/06/2014

Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
