

Revision number: 3 Revision date: 08/15/2016

# 1. IDENTIFICATION

Product name: Product code: 3-(Methylthio)aniline M1673

Product use: Restrictions on use:

### Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

## 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Harmful if swallowed

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection.

If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: Substance 3-(Methylthio)aniline >98.0%(GC)(T)

For laboratory research purposes. Not for drug or household use.

3. COMPOSITION/INFORMATION	ON INGREDIENTS	
CAS Number:	1783-81-9	
Molecular Weight:	139.22	
Chemical Formula:	C7H9NS	
Synonyms:	3-Aminothioanisole, m-Thioanisidine	
4. FIRST-AID MEASURES		
Inhalation:	Call a poison center or doctor if you feel unwell. Move victim to free is not breathing. Administer oxygen if breathing is difficult. Keep v symptomatically and supportively. Ensure that medical personnel take precautions to protect themselves.	ictim warm and quiet. Treat are aware of the material(s) involved and
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and was Remove and isolate contaminated clothing and shoes. In case of flush skin with running water for at least 20 minutes. Treat sympto medical personnel are aware of the material(s) involved and take	contact with substance, immediately omatically and supportively. Ensure that
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minut material may irritate or burn eyes. Call emergency medical service remove any contact lenses. Keep victim warm and quiet. Treat sy exposure to substance may be delayed. Ensure that medical pers involved and take precautions to protect themselves.	tes, keeping eyelids open. Contact with e. Move victim to fresh air. Check for and mptomatically and supportively. Effects of
Ingestion:	Harmful if swallowed. Do not induce vomiting with out medical adv immediately and show the container or label. Do not use mouth-to substance; give artificial respiration with the aid of a pocket mask proper respiratory medical device. Loosen tight clothing such as a vomits place them in the recovery position so that vomit will not re Keep victim warm and quiet. Treat symptomatically and supportiv aware of the material(s) involved and take precautions to protect to	p-mouth method if victim ingested the equipped with a one-way valve or other a collar, tie, belt or waistband. If a person eenter the mouth and throat. Rinse mouth. ely. Ensure that medical personnel are
Symptoms/effects:		
Acute: Delayed:	Redness. No data available	
Immediate medical attention:	WARNING: It might be hazardous to the person providing aid to g the inhaled material is harmful. If breathing has stopped, perform treatment according to the nature of the injury. Ensure that medica involved and take precautions to protect themselves.	artificial respiration. Use first aid
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, CO <sub>2</sub> , sand, earth, water spray or regular foam Consattempting large scale fire fighting operations.	sult with local fire authorities before
Specific hazards arising from the che Hazardous combustion products: Other specific hazards:	mical These products include: Carbon oxides Nitrogen oxides Sulfur oxi Closed containers may explode from heat of a fire.	ides
heated. Move containers from fire area i Special protective equipment for fire- Wear positive pressure self-contained b		rovides limited protection in fire situations
6. ACCIDENTAL RELEASE MEAS	URES	
Personal processions	Avoid contact with skin, avea, and elathing. Keen people avery for	m and unwind of anill/look. Do not touch
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away fro damaged containers or spilled material unless wearing appropriat unnecessary personnel to move away. Stop leak if you can do it v Isolate the hazard area and deny entry to unnecessary and unpro	e protective clothing (Section 8). Warn vithout risk. Ensure adequate ventilation.
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full len respirator. Be sure to use a MSHA/NIOSH approved respirator or (nitrile).	

Emergency procedures:

(nitrile). In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

## 6. ACCIDENTAL RELEASE MEASURES

## Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Do NOT breath gas, fumes, vapor, or spray. Do not ingest. Avoid contact with skin and eyes. Good genera ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container
	with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. Store under inert gas (e.g. Argon).
Storage incompatibilities:	Combustible substances, Store away from oxidizing agents

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

# Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Vapor respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Wear eye protection (splash goggles) and face protection (full length face shield).
Skin and body protection:	Lab coat.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Liquid Clear Colorless - Yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	No data available 165°C (329°F)/2.1kPa No data available 1.15 No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log P <sub>ow</sub> )	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available

 constant (PaM³/mol)
 No

Disposal of product:	Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local
	rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a
	chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide
	assistance but does not replace these laws, nor does compliance in accordance with this section ensure
	regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous
	Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains,
	waste are instead in 40 of 14 mars 201. The product should not be allowed to enter the environment, drains, water ways, or the soil.
Disposal of container:	Dispose of as unused product. Do not re-use empty containers.
Other considerations:	Observe all federal, state and local regulations when disposing of the substance.

## 16. OTHER INFORMATION

### Revision date: 08/15/2016

Revision number: 3

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.

HMIS Classification:

D2A: Materials causing other toxic effects. (Very Toxic) D2B: Materials causing other toxic effects. (Toxic)
