

Revision number: 3 Revision date: 08/15/2016

1. IDENTIFICATION

Product name: Product code: 3,5-Di-tert-butylsalicylic Acid D1947

For laboratory research purposes.

Not for drug or household use.

TCI AMERICA

SAFETY DATA SHEET

Product use: Restrictions on use:

Company:

CI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A] Aquatic Hazard (Acute) [Category 2]

Signal word:

Warning!

None

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Toxic to aquatic life

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention] [Response]

> [Storage] [Disposal]

Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: CAS Number: Molecular Weight: Chemical Formula:

Substance 3,5-Di-tert-butylsalicylic Acid >95.0%(T) 19715-19-6 250.34 C₁₅H₂₂O₃

Emergency telephone number:

3. COMPOSITION/INFORMATION Synonyms:	V ON INGREDIENTS 3,5-Di-tert-butyl-2-hydroxybenzoic Acid	
4. FIRST-AID MEASURES		
Inhalation:	Call emergency medical service. Move victim to fresh air. Give artificial respiration if victim is not breath Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions protect themselves.	
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and wash contamina case of contact with substance, immediately flush skin with running water for a symptomatically and supportively. Ensure that medical personnel are aware o take precautions to protect themselves.	at least 20 minutes. Treat
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping material may irritate or burn eyes. Call emergency medical service. Move victi remove any contact lenses. Keep victim warm and quiet. Treat symptomatical exposure to substance may be delayed. Ensure that medical personnel are av involved and take precautions to protect themselves.	m to fresh air. Check for an ly and supportively. Effects ware of the material(s)
Ingestion:	Do not induce vomiting with out medical advice. If swallowed, seek medical ad the container or label. Do not use mouth-to-mouth method if victim ingested th respiration with the aid of a pocket mask equipped with a one-way valve or oth medical device. Loosen tight clothing such as a collar, tie, belt or waistband. It in the recovery position so that vomit will not reenter the mouth and throat. Rir and quiet. Treat symptomatically and supportively. Ensure that medical person material(s) involved and take precautions to protect themselves.	ne substance; give artificial ner proper respiratory f a person vomits place the nse mouth. Keep victim wa
Symptoms/effects:		
Acute: Delayed:	Redness. No data available	
mmediate medical attention:	If breathing has stopped, perform artificial respiration. Use first aid treatment a injury. Ensure that medical personnel are aware of the material(s) involved an themselves.	
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, CO_2 , sand, earth, water spray or regular foam Consult with loca attempting large scale fire fighting operations.	al fire authorities before
Specific hazards arising from the che		
lazardous combustion products: Other specific hazards:	These products include: Carbon oxides Closed containers may explode from heat of a fire.	
Special precautions for fire-fighters: Jse water spray or fog; do not use strai leated. Move containers from fire area Special protective equipment for fire		ntainers may explode whe
Vear positive pressure self-contained b	preathing apparatus (SCBA). Structural fire fighters' protective clothing provides limite uations. Wear chemical protective clothing which is specifically recommended by the	

Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).
Emergency procedures:	Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

Methods and materials for containment and cleaning up: ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. Dike far ahead of spill; use dry sand to contain the flow of material. Ventilate the area.

6. ACCIDENTAL RELEASE MEASURES

Environmental precautions:

Environmental hazard. Do not let product enter drains. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Avoid contact with skin and eyes. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Store away from oxidizing agents

8. EXPOSURE	CONTROLS /	PERSONAL	PROTECTIO	D٨

Exposure limits:

No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Wear protective gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Slightly pale yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	163°C (325°F) No data available No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log P _{ow})	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	179°C (354°F) No data available		

Solubility(ies): Soluble: Methanol

10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Strong oxidizing agents No data available

16. OTHER INFORMATION

Revision date: 08/15/2016

Revision number: 3

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
