

Revision number: 2 Revision date: 10/06/2014

1. IDENTIFICATION

Product name: Product code: Thioisonicotinamide T0764

For laboratory research purposes.

Product use: Restrictions on use:

Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Harmful if swallowed

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection.

If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: Substance Thioisonicotinamide >95.0%(T)

Not for drug or household use.

TCI AMERICA

3. COMPOSITION/INFORMATIO	N ON INGREDIENTS	
CAS Number:	2196-13-6	
Molecular Weight:	138.19	
Chemical Formula:	$C_6H_6N_2S$	
Synonyms:	4-Pyridylthiocarboxamide	
4. FIRST-AID MEASURES		
Inhalation:	Call a poison center or doctor if you feel unwell. Move victim to is not breathing. Administer oxygen if breathing is difficult. Keep symptomatically and supportively. Ensure that medical personn take precautions to protect themselves.	p victim warm and quiet. Treat
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and w Remove and isolate contaminated clothing and shoes. In case flush skin with running water for at least 20 minutes. Treat symp	of contact with substance, immediately ptomatically and supportively. Ensure that
Eye contact:	medical personnel are aware of the material(s) involved and tal IMMEDIATELY flush eyes with running water for at least 15 mir material may irritate or burn eyes. Call emergency medical serv remove any contact lenses. Keep victim warm and quiet. Treat exposure to substance may be delayed. Ensure that medical per involved and take precautions to protect themselves.	nutes, keeping eyelids open. Contact with vice. Move victim to fresh air. Check for and symptomatically and supportively. Effects of
Ingestion:	Harmful if swallowed. Do not induce vomiting with out medical a immediately and show the container or label. Do not use mouth substance; give artificial respiration with the aid of a pocket may proper respiratory medical device. Loosen tight clothing such a vomits place them in the recovery position so that vomit will not Keep victim warm and quiet. Treat symptomatically and suppor aware of the material(s) involved and take precautions to proteen	n-to-mouth method if victim ingested the lisk equipped with a one-way valve or other is a collar, tie, belt or waistband. If a person t reenter the mouth and throat. Rinse mouth rtively. Ensure that medical personnel are
Symptoms/effects:		
Acute: Delayed:	Redness. No data available	
Immediate medical attention:	WARNING: It might be hazardous to the person providing aid to the inhaled material is harmful. If breathing has stopped, perfor treatment according to the nature of the injury. Ensure that mee involved and take precautions to protect themselves.	rm artificial respiration. Use first aid
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, CO_2 , sand, earth, water spray or regular foam Co attempting large scale fire fighting operations.	onsult with local fire authorities before
Specific hazards arising from the ch	emical	
Hazardous combustion products: Other specific hazards:	These products include: Carbon oxides Nitrogen oxides Silicate Closed containers may explode from heat of a fire.	€S
heated. Move containers from fire area Special protective equipment for fire Wear positive pressure self-contained	ight streams. Dike fire-control water for later disposal; do not scatter th if you can do it without risk. -fighters: preathing apparatus (SCBA). Structural fire fighters' protective clothing	provides limited protection in fire situation
ONLY; it may not be effective in spill si provide little or no thermal protection.	tuations. Wear chemical protective clothing which is specifically recom	mended by the manufacturer. It may
6. ACCIDENTAL RELEASE MEA	SURES	
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away damaged containers or spilled material unless wearing appropr unnecessary personnel to move away. Stop leak if you can do	riate protective clothing (Section 8). Warn it without risk. Ensure adequate ventilation
Personal protective equipment:	Isolate the hazard area and deny entry to unnecessary and unp Wear eye protection (splash goggles) and face protection (full le respirator. Be sure to use a MSHA/NIOSH approved respirator	length face shield). Lab coat. Dust

Emergency procedures:

respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protection (turn length race shield). Lab coat. Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile). Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

6. ACCIDENTAL RELEASE MEASURES

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:**

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Good general ventilatic should be sufficient to control airborne levels. Keep container dry. Handle and open container with care.
	Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Store away from oxidizing agents

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder Pale yellow - Yellow green No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	200°C (392°F) No data available No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temperature: Flammability or explosive limits Lower: No data av Upper: No data av	ailable

Solubility(ies):

10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Strong bases, Strong oxidizing agents No data available

11. TOXICOLOGICAL INFORMATION

RTECS Number: US4204000

Acute Toxicity: orl-mus LD50:1250 mg/kg ipr-mus LD50:250 mg/kg Skin corrosion/irritation: No data available Serious eye damage/irritation: No data available Respiratory or skin sensitization: No data available Germ cell mutagenicity: No data available Carcinogenicity: No data available IARC: No data available NTP: No data available OSHA: No data available Reproductive toxicity: No data available Routes of Exposure: Inhalation, Eye contact, Ingestion, Skin contact. Symptoms related to exposure: Overexposure may result in serious illness or death. Skin contact may result in inflammation; characterized by itching, scaling, reddening, or occasionally blistering. Skin contact may result in redness, pain or dry skin. Eye contact may result in redness or pain. Potential Health Effects: Skin and eye contact may result in irritation. Target organ(s): No data available 12. ECOLOGICAL INFORMATION Ecotoxicity No data available Fish: Crustacea: No data available No data available Algae: Persistence and degradability: No data available **Bioaccumulative potential (BCF):** No data available Mobillity in soil: No data available No data available Partition coefficient: n-octanol/water (log Pow) Soil adsorption (Koc): No data available Henry's Law: No data available constant (PaM3/mol) 13. DISPOSAL CONSIDERATIONS **Disposal of product:** Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil. **Disposal of container:** Dispose of as unused product. Do not re-use empty containers. Other considerations: Observe all federal, state and local regulations when disposing of the substance. 14. TRANSPORT INFORMATION

TCI AMERICA

14. TRANSPORT INFORMATION	
DOT (US)	Non-hazardous for transportation.
IATA	Non-hazardous for transportation.
IMDG	Non-hazardous for transportation.

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.):

This product is ON the EPA Toxic Substances Control Act (TSCA) inventory.

16. OTHER INFORMATION

Revision date: 10/06/2014

Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
