

Revision number: 3 Revision date: 11/10/2015

1. IDENTIFICATION

Dipropylene Glycol (mixture of isomers)	
D0933	

TCI AMERICA

SAFETY DATA SHEET

Product use: Restrictions on use:

Product name:

Product code:

For laboratory research purposes. Not for drug or household use.

Company:	Emergency telephone number:
TCI America	Chemical Emergencies:
9211 N. Harborgate Street	TCI America (8:00am - 5:00pm) PST
Portland, OR 97203 U.S.A.	+1-503-286-7624
Telephone:	Transportation Emergencies:
+1-800-423-8616 / +1-503-283-1681	Chemtrec 24-Hour
Fax:	+1-800-424-9300 (U.S.A.)
+1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com	+1-703-527-3887 (International) Responsible department: TCI America Environmental Health Safety and Security +1- 503-286-7624

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:	Not classifiable
Signal word:	None
Hazard Statement(s):	None
Pictogram(s) or Symbol(s):	None
Precautionary Statement(s):	None

Supplementary Information:

While this material is not classified as hazardous under OSHA, this SDS contains valuable information critical to safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture:	Substance
Components:	Dipropylene Glycol (mixture of isomers)
Percent:	>95.0%(GC)
CAS Number:	25265-71-8
Molecular Weight:	134.18
Chemical Formula:	C ₆ H ₁₄ O ₃

4. FIRST-AID MEASURES

Inhalation:	Move victim to fresh air. Call emergency medical service. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.
Skin contact:	Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

4. FIRST-AID MEASURES					
Eye contact: Ingestion:	Move victim to fresh air. Check for and remove any contact lenses. In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. Keep victim warm and quiet. Treat symptomatically and supportively. Effects of exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. If a person vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Loosen tight clothing such as a collar, tie, belt or waistband. If swallowed, seek medical advice immediately and show the container or label. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Effects of exposure (ingestion) to substance may be delayed.				
Symptoms/effects:					
Acute: Delayed:	No data available No data available				
Immediate medical attention:	If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.				
5. FIRE-FIGHTING MEASURES					
Suitable extinguishing media:	Dry chemical, CO_2 , water spray, or alcohol-resistant foam. Consult with local fire authorities before attempting large scale fire fighting operations.				
Specific hazards arising from the cher	nical				
Hazardous combustion products: Other specific hazards:	These products include: Carbon oxides Closed containers may explode from heat of a fire.				
Not available Special protective equipment for fire-fi Structural fire fighters' protective clothing 6. ACCIDENTAL RELEASE MEAS	provides limited protection in fire situations ONLY; it may not be effective in spill situations.				
Personal precautions:	Do not touch damaged containers or spilled material unless wearing appropriate protective clothing				
Personal protective equipment: Emergency procedures:	(Section 8). Wear protective clothing, gloves and eye protection. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution.				
Methods and materials for containmer Dike far ahead of liquid spill for later disp Environmental precautions: Prevent entry into sewers, basements or	iosal.				
7. HANDLING AND STORAGE					
Precautions for safe handling:	Good general ventilation should be sufficient to control airborne levels. Normal measures for preventive fire protection. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.				
Conditions for safe storage:	Keep container tightly closed in a dry and well-ventilated place. Store under inert gas (e.g. Argon). Hygroscopic material, store in a tightly sealed container.				
Storage incompatibilities:					
otorage moompatismiles.	Combustible substances, Store away from oxidizing agents				
8. EXPOSURE CONTROLS / PERS					
8. EXPOSURE CONTROLS / PERS Exposure limits: Appropriate engineering controls: Good general ventilation should be suffic	SONAL PROTECTION				
8. EXPOSURE CONTROLS / PERS Exposure limits: Appropriate engineering controls: Good general ventilation should be suffic	SONAL PROTECTION No data available sient to control airborne levels. Eyewash fountains should be provided in areas where there is any possibility that				

8. EXPOSURE CONTROLS / PERSONAL PROTECTION Skin and body protection: Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Liquid Clear Colorless - Almost colorless Odorless No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	No data available No data available No data available 1.03 No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	0.64	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	138°C (280°F) No data available	Autoignition temperature: Flammability or explosive limits: Lower: No data avail	No data available lable
Solubility(ies): Water: Miscible Miscible: Ether Soluble: Alcohols, Tolue		Upper: No data avail	lable
ID: STABILITY AND REACTIV Reactivity: Chemical Stability: Possibility of Hazardous Reaction Conditions to avoid: Incompatible materials: Hazardous Decomposition Produc	Not Available. Stable under recommended a No hazardous reactivity has Avoid excessive heat and lig Strong oxidizing agents		
11. TOXICOLOGICAL INFORM	IATION		

RTECS Number: UB8765000

Acute Toxicity: orl-rat LD50:14850 mg/kg

Skin corrosion/irritation: No data available

Serious eye damage/irritation: No data available

Respiratory or skin sensitization: No data available

Germ cell mutagenicity: No data available

Carcinogenicity:

No data available

No data available IARC:

NTP:

No data available

No data available OSHA:

skn-rbt LD50:>20 mL/kg

Reproductive toxicity: orl-rat TDLo:50 g/kg(6-15D preg)

Routes of Exposure:

Symptoms related to exposure:

Inhalation, Eye contact, Ingestion.

No specific information is available in our data base regarding the toxic effects of this material for humans. However, exposure to any chemical should be kept to a minimum. Always follow safe industrial hygiene practices and wear proper protective equipment when handling this compound. **Potential Health Effects:**

No specific information available; skin and eye contact may result in irritation. May be harmful if inhaled or ingested. **Target organ(s):** No data available

12. ECOLOGICAL INFORMATION

Ecotoxicity Fish: Crustacea: Algae:	24h LC50:>5000 mg/L (Carassius auratus) No data available No data available
Persistence and degradability: Bioaccumulative potential (BCF): Mobility in soil: Partition coefficient: n-octanol/water (log Pow) Soil adsorption (Koc): Henry's Law: constant (PaM ³ /mol)	No data available 3.2 No data available 0.64 1 5.7 x 10 ⁻⁴

13. DISPOSAL CONSIDERAT	TIONS			
Disposal of product:	Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261.			
Disposal of container:	Dispose of as unused product.			
Other considerations:	Observe all federal, state and local regulations when disposing of the substance.			
14. TRANSPORT INFORMAT	ION			
DOT (US)	Non-hazardous for transportation.			
ΙΑΤΑ	Non-hazardous for transportation.			
IMDG	Non-hazardous for transportation.			

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.):

This product is ON the EPA Toxic Substances Control Act (TSCA) inventory.

US Federal Regulations

CERCLA Hazardous substance and Reportable Quantity: SARA 313: Not Listed

SARA 302:	Not Listed

State Regulations

State Right-to-Know

Massachusetts	Not Listed
New Jersey	Not Listed
Pennsylvania	Not Listed
California Proposition 65:	Not Listed

15. REGULATORY INFORMATION	ION			
NFPA Rating:		HMIS Classification:		
Health: 1		Health:	1	
Flammability: 1		Flammability:	1	
Instability: 0		Physical:	0	
International Inventories				
WHMIS hazard class: EC-No:	No data available. 246-770-3			
16. OTHER INFORMATION				

Revision date: 11/10/2015

Revision number: 3

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective gogles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
