

Revision number: 2 Revision date: 11/10/2015

## 1. IDENTIFICATION

Product	name:
Product	code:

Clinofibrate C3100

Product use: Restrictions on use: For laboratory research purposes. Not for drug or household use.

**TCI AMERICA** 

SAFETY DATA SHEET

## 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:	Not classifiable
Signal word:	None
Hazard Statement(s):	None
Pictogram(s) or Symbol(s):	None
Precautionary Statement(s):	None

Supplementary Information:

While this material is not classified as hazardous under OSHA, this SDS contains valuable information critical to safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components:	Substance Clinofibrate
Percent:	>98.0%(HPLC)
CAS Number:	30299-08-2
Molecular Weight:	468.59
Chemical Formula:	C <sub>28</sub> H <sub>36</sub> O <sub>6</sub>
Synonyms:	2,2'-(4,4'-Cyclohexylidenediphenoxy)-2,2'-dimethyldibutanoic Acid

### 4. FIRST-AID MEASURES

Inhalation:	Move victim to fresh air. Call emergency medical service. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.
Skin contact:	Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

4. FIRST-AID MEASURES         Eye contact:         Ingestion:         Ingestion:         Symptoms/effects:         Acute:         Delayed:         Immediate medical attention:         5. FIRE-FIGHTING MEASURES         Suitable extinguishing media:         Specific hazards arising from the chemica         Hazardous combustion products:         Other specific hazards:         Special precautions for fire-fighters:         Not available         Special protective equipment for fire-fighters:         Personal precautions:         Personal protective equipment:         Emergency procedures:         Methods and materials for containment and Dike far ahead of liquid spill for later disposal Environmental precautions:         Prevent entry into sewers, basements or containment or containment and precautions:         Prevent entry into sewers, basements or containment or containme	None         Closed containers may explode from heat of a fire.         ters:         wides limited protection in fire situations ONLY; it may not be effective in spill situations.         ES         Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8).         Wear protective clothing, gloves and eye protection.         In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise	
Acute: Delayed: Immediate medical attention: 5. FIRE-FIGHTING MEASURES Suitable extinguishing media: Specific hazards arising from the chemica Hazardous combustion products: Other specific hazards: Special precautions for fire-fighters: Not available Special protective equipment for fire-fight Structural fire fighters' protective clothing protective clothing protective structural fire fighters: Personal precautions: Personal protective equipment: Emergency procedures: Methods and materials for containment an Dike far ahead of liquid spill for later disposal Environmental precautions: Prevent entry into sewers, basements or contain 7. HANDLING AND STORAGE	No data available If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Dry chemical, CO <sub>2</sub> , water spray, or alcohol-resistant foam. Consult with local fire authorities before attempting large scale fire fighting operations. al None Closed containers may explode from heat of a fire. ters: wides limited protection in fire situations ONLY; it may not be effective in spill situations. ES Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Wear protective clothing, gloves and eye protection. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise

Dike far ahead of liquid spill for later disposal Environmental precautions: Prevent entry into sewers, basements or cont 7. HANDLING AND STORAGE		
	I	
Precautions for safe handling:		
	Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection. Follow safe industrial hygiene practices and always wear proper protective equipment wher handling this compound.	
Conditions for safe storage: Storage incompatibilities:	Keep container tightly closed in a dry and well-ventilated place. Store away from oxidizing agents	
8. EXPOSURE CONTROLS / PERSON	IAL PROTECTION	
Exposure limits:	No data available	
	to control airborne levels. Eyewash fountains should be provided in areas where there is any possibility that Follow safe industrial engineering/laboratory practices when handling any chemical.	
Personal protective equipment		
Respiratory protection: Hand protection: Eye protection: Skin and body protection:		

### 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Very pale yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	145°C (293°F) No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log P <sub>ow</sub> )	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temperature: Flammability or explosive limits Lower: No data ava Upper: No data ava	ailable

Solubility(ies):

Water: Insoluble Very soluble: Methanol, Ether, Acetone, Chloroform, Ethanol Very slightly soluble: Benzene Insoluble: Carbon tetrachloride, Hexane

## **10. STABILITY AND REACTIVITY**

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: **Hazardous Decomposition Products:**  Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Oxidizing agents No data available

### 11. TOXICOLOGICAL INFORMATION

#### RTECS Number: ES8900000

Acute Toxicity: orl-rat LD50:>4 g/kg

ivn-rat LD50:>150 mg/kg

#### Skin corrosion/irritation: No data available

#### Serious eye damage/irritation: No data available

Respiratory or skin sensitization: No data available

Germ cell mutagenicity: No data available

#### Carcinogenicity:

No data available

IARC: No data available NTP:

No data available

OSHA: No data available

scu-rat LD50:1930 mg/kg

ipr-rat LD50:205 mg/kg

#### **TCI AMERICA**

#### Routes of Exposure:

Symptoms related to exposure:

Inhalation, Eye contact, Ingestion.

No specific information is available in our data base regarding the toxic effects of this material for humans. However, exposure to any chemical should be kept to a minimum. Always follow safe industrial hygiene practices and wear proper protective equipment when handling this compound. **Potential Health Effects:** 

No specific information available; skin and eye contact may result in irritation. May be harmful if inhaled or ingested. **Target organ(s):** No data available

### 12. ECOLOGICAL INFORMATION

Ecotoxicity Fish: Crustacea: Algae:	No data available No data available No data available
Persistence and degradability: Bioaccumulative potential (BCF): Mobillity in soil: Partition coefficient: n-octanol/water (log Pow)	No data available No data available No data available No data available
Soil adsorption (Koc): Henry's Law: constant (PaM <sup>3</sup> /mol)	No data available No data available

13. DISPOSAL CONSIDERAT	TIONS	
Disposal of product:	Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261.	
Disposal of container:	Dispose of as unused product.	
Other considerations:	Observe all federal, state and local regulations when disposing of the substance.	
14. TRANSPORT INFORMAT	TON	
DOT (US)	Non-hazardous for transportation.	
ΙΑΤΑ	Non-hazardous for transportation.	
IMDG	Non-hazardous for transportation.	

## 15. REGULATORY INFORMATION

#### Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

### **US Federal Regulations**

<b>CERCLA Hazardous substa</b>	nce and Reportable Quantity:

16. OTHER INFORMATION					

#### Revision date: 11/10/2015

### **Revision number: 2**

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
