

Revision number: 3 Revision date: 10/06/2014

# 1. IDENTIFICATION

Product name: Product code:	N,N-Diethyldodecanamide D1407	
Product use: Restrictions on use:	For laboratory research purposes. Not for drug or household use.	

Company:	Emergency telephone number:
TCI America	Chemical Emergencies:

## 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:	Eye Damage/Irritation [Category 2B]
Signal word:	Warning!
Hazard Statement(s):	Causes eye irritation
Pictogram(s) or Symbol(s):	None
Precautionary Statement(s): [Prevention] [Response] [Storage] [Disposal]	Wash hands and face thoroughly after handling. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None None

**TCI AMERICA** 

SAFETY DATA SHEET

Hazards not otherwise classified: [HNOC] Causes mild skin irritation.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components:	Substance N,N-Diethyldodecanamide
Percent:	>98.0%(GC)
CAS Number:	3352-87-2
Molecular Weight:	255.45
Chemical Formula:	C <sub>16</sub> H <sub>33</sub> NO
Synonyms:	N,N-Diethyllauramide, N-Dodecanoyldiethylamine, N-Lauroyldiethylamine

# 4. FIRST-AID MEASURES

Inhalation:

Call a poison center or doctor if you feel unwell. Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

4. FIRST-AID MEASURES			
Skin contact:	If skin irritation occurs get medical advice/attention. Remove and wash contaminated clothing before re- use. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact with material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for and remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects of exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
Ingestion:	Do not induce vomiting with out medical advice. If swallowed, seek medical advice immediately and show the container or label. Loosen tight clothing such as a collar, tie, belt or waistband. If a person vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
Symptoms/effects:			
Acute: Delayed:	Redness. No data available		
Immediate medical attention:	If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
5. FIRE-FIGHTING MEASURES			
Suitable extinguishing media:	Dry chemical, CO <sub>2</sub> , sand, earth, water spray or regular foam Consult with local fire authorities before attempting large scale fire fighting operations.		
Specific hazards arising from the chen			
Hazardous combustion products: Other specific hazards:	These products include: Carbon oxides Nitrogen oxides Closed containers may explode from heat of a fire.		
Special precautions for fire-fighters: Use water spray or fog; do not use straigh heated. Move containers from fire area if Special protective equipment for fire-fire-fi			

Special protective equipment for fire-fighters:

Wear positive pressure self-contained breathing apparatus (SCBA). Structural fire fighters' protective clothing provides limited protection in fire situations ONLY; it may not be effective in spill situations. Wear chemical protective clothing which is specifically recommended by the manufacturer. It may provide little or no thermal protection.

## 6. ACCIDENTAL RELEASE MEASURES

Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Vapor respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).
Emergency procedures:	In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

### Methods and materials for containment and cleaning up:

7. HANDLING AND STORAGE

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

# Precautions for safe handling: Do NOT breath gas, fumes, vapor, or spray. Avoid contact with skin and eyes. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition.

N,N-Diethyldodecanamide

7. HANDLING AND STORAG Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incom Containers which are opened must be carefully resealed and kept upright to prevent leal		
Stavaga in compatibilities.	prolonged storage perio	ods. Store under inert gas (e.g. Argores, Store away from oxidizing agents)	
Storage incompatibilities:		s, Store away from oxidizing agents	
8. EXPOSURE CONTROLS /	PERSONAL PROTECTION		
Exposure limits:	No data available		
	e sufficient to control airborne levels eas where there is any possibility th	s. Ventilation is normally required wh nat workers could be exposed to the	en handling or using this product. Eyewash substance. Follow safe industrial
Personal protective equipment			
Respiratory protection:		re to use a MSHA/NIOSH approved	respirator or equivalent.
Hand protection: Eye protection:	Nitrile gloves.	blash goggles) and face protection (f	Ill longth face shield)
Skin and body protection:	Lab coat.	blash goggles) and lace protection (h	un rengun race smeid).
9. PHYSICAL AND CHEMICA	AL PROPERTIES		
Physical state (20°C):	Liquid		
Form:	Clear		
Color:	Colorless - Slightly pale	e yellow	
Odor:	No data available		
Odor threshold:	No data available		
Melting point/freezing point:	2°C (Freezing point) (36°F)	pH:	No data available
Boiling point/range:	167°C (333°F)/0.3kPa	Vapor pressure:	No data available
Decomposition temperature:	No data available	Vapor density:	No data available
Relative density: Kinematic Viscosity:	0.87 No data available	Dynamic Viscosity:	No data available
Partition coefficient:	No data available	Evaporation rate:	No data available
n-octanol/water (log Pow)		(Butyl Acetate = 1)	
Flash point:	113°C (235°F)	Autoignition temperature:	No data available
Flammability (solid, gas):	No data available	Flammability or explosive l	
			a available
Solubility(ies):		Upper: No da	a available
10. STABILITY AND REACTI	VITY		
Reactivity: Chemical Stability: Possibility of Hazardous Reactio Conditions to avoid: Incompatible materials:		nd light.	n 7)

11. TOXICOLOGICAL INFOR	MATION		
RTECS Number: RB4200000			

N,N-Diethyldodecanamide	TCI AMERICA	Page 4 of 5
Acute Toxicity: ivn-mus LD50:287 mg/kg		
Skin corrosion/irritation: No data available		
Serious eye damage/irritation: No data available		
<b>Respiratory or skin sensitization:</b> No data available		
Germ cell mutagenicity: No data available		
Carcinogenicity:		
No data available		
IARC: No data available	NTP: No data available OSHA: No data available	
Reproductive toxicity: No data available		
Routes of Exposure: Symptoms related to exposure:	Inhalation, Eye contact, Ingestion, Skin contact. Skin contact may result in redness, pain or dry skin.	
Potential Health Effects: Skin and eye contact may result in irritation. Target organ(s):		
12. ECOLOGICAL INFORMATION		
Ecotoxicity Fish:	No data available	
Crustacea: Algae:	No data available No data available	
Persistence and degradability: Bioaccumulative potential (BCF): Mobillity in soil: Partition coefficient:	No data available No data available No data available No data available	
n-octanol/water (log P₀w) Soil adsorption (Koc):	No data available	
Henry's Law: constant (PaM³/mol)	No data available	
13. DISPOSAL CONSIDERATIONS		
Disposal of product:	Recycle to process if possible. It is the generator's responsibility to comply with Federal, Star rules and regulations. You may be able to dissolve or mix material with a combustible solver chemical incinerator equipped with an afterburner and scrubber system. This section is inten assistance but does not replace these laws, nor does compliance in accordance with this ser regulatory compliance according to the law. US EPA guidelines for Identification and Listing Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the enviro water ways, or the soil.	t and burn in a ded to provide ction ensure of Hazardous
Disposal of container: Other considerations:	Dispose of as unused product. Do not re-use empty containers. Observe all federal, state and local regulations when disposing of the substance.	
14. TRANSPORT INFORMATION		
DOT (US)	Non-hazardous for transportation.	
ΑΤΑ	Non-hazardous for transportation.	
IMDG	Non-hazardous for transportation.	

## 15. REGULATORY INFORMATION

#### Toxic Substance Control Act (TSCA 8b.):

This product is ON the EPA Toxic Substances Control Act (TSCA) inventory.

16. OTHER INFO	ORMATION			

Revision date: 10/06/2014

**Revision number: 3** 

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
