

Revision number: 3 Revision date: 10/17/2016

### **IDENTIFICATION** 1.

Product name: Product code:

2-Bromo-6-nitrotoluene B1878

### Product use: Restrictions on use:

# Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

# 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Acute Toxicity - Dermal [Category 4] Acute Toxicity - Inhalation [Category 4] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Harmful if swallowed Harmful in contact with skin

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves and protective clothing. Avoid breathing dusts or mists. Use only outdoors or in a wellventilated area. Wear protective gloves. Wear eye and face protection.

If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. Call a poison center or doctor if you feel unwell. Take off contaminated clothing and wash it before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. If skin irritation or rash occurs: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

**TCI AMERICA** 

SAFETY DATA SHEET

Not for drug or household use.

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Substance/Mixture:<br>Components: | Substance<br>2-Bromo-6-nitrotoluene             |
|-----------------------------------|---|
| Percent:                          | >98.0%(GC)                                      |
| CAS Number:                       | 55289-35-5                                      |
| Molecular Weight:                 | 216.03  |
| Chemical Formula:                 | C <sub>7</sub> H <sub>6</sub> BrNO <sub>2</sub> |

# 4. FIRST-AID MEASURES

| Inhalation:  | Call a poison center or doctor if you feel unwell. Move victim to fresh air. Give artificial respiration if victim<br>is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat<br>symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and<br>take precautions to protect themselves.   |
|--|--|
| Skin contact:  | Call a poison center or doctor if you feel unwell. Remove and wash contaminated clothing before re-use.<br>Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately<br>flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that  |
| Eye contact:   | medical personnel are aware of the material(s) involved and take precautions to protect themselves.<br>IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact with<br>material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for and<br>remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects of<br>exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s)   |
| Ingestion:   | involved and take precautions to protect themselves.<br>Harmful if swallowed. Do not induce vomiting with out medical advice. Call a physician or Poison Control<br>Center immediately. Do not use mouth-to-mouth method if victim ingested the substance; give artificial<br>respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory<br>medical device. Loosen tight clothing such as a collar, tie, belt or waistband. If a person vomits place them<br>in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm<br>and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the<br>material(s) involved and take precautions to protect themselves. |
| Symptoms/effects:  |  |
| Acute:<br>Delayed:   | Redness.<br>No data available  |
| Immediate medical attention:   | WARNING: It might be hazardous to the person providing aid to give mouth-to-mouth respiration, because the inhaled material is harmful. If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.   |
| 5. FIRE-FIGHTING MEASURES  |  |
| Suitable extinguishing media:  | Dry chemical, CO <sub>2</sub> , sand, earth, water spray or regular foam Consult with local fire authorities before attempting large scale fire fighting operations.   |
| Specific hazards arising from the chemi<br>Hazardous combustion products:<br>Other specific hazards:   | <b>cal</b><br>These products include: Carbon oxides Nitrogen oxides Halogenated compounds<br>Closed containers may explode from heat of a fire.  |
| heated. Move containers from fire area if yo<br><b>Special protective equipment for fire-fig</b><br>Wear positive pressure self-contained brea |  |
| 6. ACCIDENTAL RELEASE MEASU  | RES  |
| Personal precautions:  | Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn  |

Personal protective equipment: Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).

unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation.

# 6. ACCIDENTAL RELEASE MEASURES Emergency procedures: P

Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

# Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

# 7. HANDLING AND STORAGE Precautions for safe handling: Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Avoid contact with skin. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition. Conditions for safe storage: Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. Store away from oxidizing agents

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

# Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

| Respiratory protection:   | Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. |
|---------------------------|---|
| Hand protection:          | Nitrile gloves.   |
| Eve protection:           | Safety glasses.   |
| Skin and body protection: | Lab coat.   |

# 9. PHYSICAL AND CHEMICAL PROPERTIES

| Physical state (20°C): | Solid                     |

| 13. DISPOSAL CONSIDERATIONS                     |   |
|---|---|
| Disposal of product:                            | Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil. |
| Disposal of container:<br>Other considerations: | Dispose of as unused product. Do not re-use empty containers.<br>Observe all federal, state and local regulations when disposing of the substance.  |

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective gogles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
