

Revision number: 3 Revision date: 08/15/2016

1. IDENTIFICATION

Product name: Product code: 5-Methylresorcinol Monohydrate M0426

For laboratory research purposes.

Not for drug or household use.

TCI AMERICA

SAFETY DATA SHEET

Product use: Restrictions on use:

Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Harmful if swallowed

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection.

If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: Substance 5-Methylresorcinol Monohydrate >98.0%(GC)

Emergency telephone number:

5-Methylresorcinol Monohydrate	TCI AMERICA	Page 2 of 5
3. COMPOSITION/INFORMATION	ON INGREDIENTS	
CAS Number:	6153-39-5	
Molecular Weight:	124.14(Anh)	
Chemical Formula:	$C_7H_8O_2 \cdot H_2O$	
Synonyms:	1,3-Dihydroxy-5-methylbenzene Monohydrate, 3,5-Dihydroxytoluene Mono	hydrate, Orcinol Monohydrate
4. FIRST-AID MEASURES		
Inhalation:	Call a poison center or doctor if you feel unwell. Move victim to fresh air. Gi is not breathing. Administer oxygen if breathing is difficult. Keep victim warr symptomatically and supportively. Ensure that medical personnel are aware take precautions to protect themselves.	n and quiet. Treat e of the material(s) involved and
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and wash contam Remove and isolate contaminated clothing and shoes. In case of contact w flush skin with running water for at least 20 minutes. Treat symptomatically medical personnel are aware of the material(s) involved and take precautio	ith substance, immediately and supportively. Ensure that
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, keepin material may irritate or burn eyes. Call emergency medical service. Move vious remove any contact lenses. Keep victim warm and quiet. Treat symptomatic exposure to substance may be delayed. Ensure that medical personnel are involved and take precautions to protect themselves.	ng eyelids open. Contact with ictim to fresh air. Check for and cally and supportively. Effects of
Ingestion:	Harmful if swallowed. Do not induce vomiting with out medical advice. If sw immediately and show the container or label. Do not use mouth-to-mouth m substance; give artificial respiration with the aid of a pocket mask equipped proper respiratory medical device. Loosen tight clothing such as a collar, tie vomits place them in the recovery position so that vomit will not reenter the Keep victim warm and quiet. Treat symptomatically and supportively. Ensur aware of the material(s) involved and take precautions to protect themselve	nethod if victim ingested the with a one-way valve or other e, belt or waistband. If a person mouth and throat. Rinse mouth re that medical personnel are
Symptoms/effects:		
Acute:	Redness.	
Delayed:	No data available	
Immediate medical attention:	WARNING: It might be hazardous to the person providing aid to give mouth the inhaled material is harmful. If breathing has stopped, perform artificial re treatment according to the nature of the injury. Ensure that medical personr involved and take precautions to protect themselves.	espiration. Use first aid
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, CO_2 , sand, earth, water spray or regular foam Consult with lo attempting large scale fire fighting operations.	ocal fire authorities before
Specific hazards arising from the che		
Hazardous combustion products: Other specific hazards:	These products include: Carbon oxides Closed containers may explode from heat of a fire.	
Special precautions for fire-fighters: Use water spray or fog; do not use straig heated. Move containers from fire area it	ht streams. Dike fire-control water for later disposal; do not scatter the material.	Containers may explode when

6. ACCIDENTAL RELEASE MEAS	URES	
Personal processions:	Avoid contract with skin, such, and elething. Keep people sway from and we	wind of chill/look. Do not touch
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and up damaged containers or spilled material unless wearing appropriate protecti unnecessary personnel to move away. Stop leak if you can do it without risl Isolate the hazard area and deny entry to unnecessary and unprotected pe	ve clothing (Section 8). Warn k. Ensure adequate ventilation.

Personal protective equipment:

Emergency procedures:

(nitrile). Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves

6. ACCIDENTAL RELEASE MEASURES

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:**

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Good general ventilatio should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. Store under inert gas (e.g. Argon).
Storage incompatibilities:	Store away from oxidizing agents

Exposure limits: No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Pale reddish yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	59°C (138°F) No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log P _{ow})	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temper Flammability or exp Lower: Upper:	

Solubility(ies): Soluble: Methanol

10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Air sensitive. Light sensitive. Moisture sensitive. No hazardous reactivity has been reported. Air sensitive. Exposure to air. Exposure to light. Exposure to moisture. Light sensitive. Moisture sensitive. Acid anhydrides, Acid chlorides, Strong oxidizing agents No data available **TCI AMERICA**

16. OTHER INFORMATION

Revision date: 08/15/2016

Revision number: 3

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
