

#### Revision number: 2 Revision date: 10/06/2014

# 1. IDENTIFICATION

Product name: Product code: 2-Chloro-5-nitrophenol C2077

For laboratory research purposes.

#### Product use: Restrictions on use:

# Company:

TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

# 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

Hazard Statement(s):

Causes serious eye irritation Causes skin irritation Harmful if swallowed

Pictogram(s) or Symbol(s):

#### Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection.

If swallowed: Immediately call a poison center or doctor. Rinse mouth. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Components: Percent: Substance 2-Chloro-5-nitrophenol >98.0%(GC)(T)

Not for drug or household use.

**TCI AMERICA** 

SAFETY DATA SHEET

3. COMPOSITION/INFORMATION	ON INGREDIENTS		
CAS Number:	619-10-3		
Molecular Weight:	173.55		
Chemical Formula:	C <sub>6</sub> H <sub>4</sub> CINO <sub>3</sub>		
4. FIRST-AID MEASURES			
Inhalation:	Call a poison center or doctor if you feel unwell. Move victim to fresh air. G is not breathing. Administer oxygen if breathing is difficult. Keep victim war symptomatically and supportively. Ensure that medical personnel are awar take precautions to protect themselves.	m and quiet. Treat	
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and wash contaminated clothing before re-use. Remove and isolate contaminated clothing and shoes. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.		
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, keep material may irritate or burn eyes. Call emergency medical service. Move v remove any contact lenses. Keep victim warm and quiet. Treat symptomat exposure to substance may be delayed. Ensure that medical personnel are involved and take precautions to protect themselves.	ing eyelids open. Contact with victim to fresh air. Check for and ically and supportively. Effects of	
Ingestion:	Harmful if swallowed. Do not induce vomiting with out medical advice. If sw immediately and show the container or label. Do not use mouth-to-mouth r substance; give artificial respiration with the aid of a pocket mask equipped proper respiratory medical device. Loosen tight clothing such as a collar, ti vomits place them in the recovery position so that vomit will not reenter the Keep victim warm and quiet. Treat symptomatically and supportively. Ensu aware of the material(s) involved and take precautions to protect themselv	nethod if victim ingested the d with a one-way valve or other e, belt or waistband. If a person e mouth and throat. Rinse mouth. ire that medical personnel are	
Symptoms/effects:			
Acute: Delayed:	Redness. No data available		
Immediate medical attention:	WARNING: It might be hazardous to the person providing aid to give mout the inhaled material is harmful. If breathing has stopped, perform artificial r treatment according to the nature of the injury. Ensure that medical person involved and take precautions to protect themselves.	espiration. Use first aid	
5. FIRE-FIGHTING MEASURES			
Suitable extinguishing media:	Dry chemical, $CO_2$ , sand, earth, water spray or regular foam Consult with l attempting large scale fire fighting operations.	ocal fire authorities before	
Specific hazards arising from the che			
Hazardous combustion products: Other specific hazards:	These products include: Carbon oxides Nitrogen oxides Halogenated com WARNING: Highly toxic HCI gas is produced during combustion.	pounds	
heated. Move containers from fire area <b>Special protective equipment for fire</b> - Wear positive pressure self-contained b		mited protection in fire situations	
6. ACCIDENTAL RELEASE MEAS	SURES		
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and up damaged containers or spilled material unless wearing appropriate protect unnecessary personnel to move away. Stop leak if you can do it without a	ive clothing (Section 8). Warn sk. Ensure adequate ventilation.	
Personal protective equipment:	Isolate the hazard area and deny entry to unnecessary and unprotected per Wear eye protection (splash goggles) and face protection (full length face a respirator. Be sure to use a MSHA/NIOSH approved respirator or equivale (nitrile).	shield). Lab coat. Dust	
Emergency procedures:	Prevent dust cloud. In case of a spill and/or a leak, always shut off any sou	irces of ignition, ventilate the	

**Emergency procedures:** Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

# 6. ACCIDENTAL RELEASE MEASURES

# Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:** 

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Good general ventilatio should be sufficient to control airborne levels. Keep container dry. Handle and open container with care.
	Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Store away from oxidizing agents

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

# Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder Pale yellow - Grayish redd No data available No data available	ish yellow	
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	112°C (234°F) No data available No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temperature: Flammability or explosive limi Lower: No data a Upper: No data a	vailable

Solubility(ies): Soluble: Methanol

# 10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Strong oxidizing agents No data available

Acute Toxicity: No data available

Non-hazardous for transportation.

Non-hazardous for transportation.

### 15. REGULATORY INFORMATION

## Toxic Substance Control Act (TSCA 8b.):

**CERCLA Hazardous substance and Reportable Quantity:** 

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

# **16. OTHER INFORMATION**

#### Revision date: 10/06/2014 Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.

D2A: Materials causing other toxic effects. (Very Toxic) D2B: Materials causing other toxic effects. (Toxic)
