

### Revision number: 4 Revision date: 11/10/2015

## 1. IDENTIFICATION

2-Ethylhexyl Methacrylate (stabilized with MEHQ) M0591

For laboratory research purposes.

Not for drug or household use.

**TCI AMERICA** 

SAFETY DATA SHEET

## 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2B] Toxic to Reproduction [Category 2] Aquatic Hazard (Acute) [Category 2] Aquatic Hazard (Long-Term) [Category 2]

Warning!

Signal word:

Hazard Statement(s):

Causes eye irritation Causes skin irritation Suspected of damaging fertility or the unborn child Toxic to aquatic life Toxic to aquatic life with long lasting effects

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Wash hands and face thoroughly after handling. Wear protective gloves. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing, eye protection and face protection.

If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. If exposed: Call a poison center or doctor. Store locked up.

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

Hazards not otherwise classified: [HNOC] May cause polymerization. Lachrymator

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture:	Substance			
Components:	2-Ethylhexyl Methacrylate (stabilized with MEHQ)			
Percent:	>99.0%(GC)			
CAS Number:	688-84-6			
Molecular Weight:	198.31			
Chemical Formula:	C <sub>12</sub> H <sub>22</sub> O <sub>2</sub> Mathematic Acid 2 Ethylkoval Ector (atabilized with MELIO) Mathematic Acid Octyl Ector (atabilized with			
Synonyms:	Methacrylic Acid 2-Ethylhexyl Ester (stabilized with MEHQ), Methacrylic Acid Octyl Ester (stabilized with MEHQ), Octyl Methacrylate (stabilized with MEHQ)			
Stabilizers:	MenQ), Octyl Methacrylate (stabilized with MEnQ) Monomethylether Hydroquinone			
4. FIRST-AID MEASURES				
Inhalation:	Call emergency medical service. Effects of exposure (inhalation) to substance may be delayed. Inhalation of vapors or contact with substance will result in contamination and potential harmful effects. Move victim to fresh air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are			
Skin contact:	aware of the material(s) involved and take precautions to protect themselves. Call a poison center or doctor if you feel unwell. Effects of exposure (skin contact) to substance may be delayed. Remove and wash contaminated clothing before re-use. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.			
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Contact with material may irritate or burn eyes. Call emergency medical service. Move victim to fresh air. Check for and remove any contact lenses. Keep victim warm and quiet. Treat symptomatically and supportively. Effects of exposure to substance may be delayed. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.			
Ingestion:	Do not induce vomiting with out medical advice. Effects of exposure (ingestion) to substance may be delayed. If swallowed, seek medical advice immediately and show the container or label. Do not use mouth-to-mouth method if victim ingested the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Loosen tight clothing such as a collar, tie, belt or waistband. If a person vomits place them in the recovery position so that vomit will not reenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.			
Symptoms/effects:				
Acute: Delayed:	Redness. No data available			
Immediate medical attention:	CAUTION: Victim may be a source of contamination. If breathing has stopped, perform artificial respiration. Use first aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.			
5. FIRE-FIGHTING MEASURES				
Suitable extinguishing media:	Dry chemical, CO <sub>2</sub> , water spray, or alcohol-resistant foam. Consult with local fire authorities before attempting large scale fire fighting operations.			
Specific hazards arising from the chemic Hazardous combustion products: Other specific hazards:	cal These products include: Carbon oxides Closed containers may explode from heat of a fire.			
heated. Move containers from fire area if yo <b>Special protective equipment for fire-figl</b> Wear positive pressure self-contained breat				
6. ACCIDENTAL RELEASE MEASUR	RES			

# Personal precautions:

Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

6. ACCIDENTAL RELEASE MEASURES			
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full length face shield). Wear protective clothing (chemical resistant suit and chemical resistant boots). Vapor respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).		
Emergency procedures:	Do not clean-up or dispose except under supervision of a specialist. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.		

## Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. Dike far ahead of spill; use dry sand to contain the flow of material. Ventilate the area.

### **Environmental precautions:**

Keep away from living quarters. Environmental hazard. Do not let product enter drains. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

7. HANDLING AND STORAGE	
Precautions for safe handling:	Do NOT breath gas, fumes, vapor, or spray. Manipulate under an adequate fume hood. Avoid contact with skin and eyes. Avoid contact - obtain special instructions before use. Avoid prolonged or repeated exposure. Normal measures for preventive fire protection. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition.
Conditions for safe storage:	Store locked up. Keep containers tightly closed in a cool, well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Combustible substances, Store away from oxidizing agents

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits:

No data available

#### Appropriate engineering controls:

Handle only in a fully enclosed system and equipment. Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

### Personal protective equipment

Respiratory protection:	Vapor respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Wear protective gloves.
Eye protection:	Splash goggles.
Skin and body protection:	Wear protective clothing (chemical resistant suit and chemical resistant boots).

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Liquid Clear Colorless - Almost colorless No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	No data available 88°C (190°F)/0.5kPa No data available 0.88 No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available 133Pa/20°C 6.8 No data available
Partition coefficient: n-octanol/water (log Pow)	4.2 - 4.8	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	100°C (212°F) No data available	Autoignition temper Flammability or exp Lower: Upper:	

Solubility(ies):

## 10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products:	Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Acids, Alkali, Bases, Strong oxidizing agents No data available				
11. TOXICOLOGICAL INFORMATION					
RTECS Number: OZ4630000					
Acute Toxicity: ipr-mus LD50:2614 mg/kg	ivn-dog LDLo:261 uL/kg				
Skin corrosion/irritation: No data available					
Serious eye damage/irritation: No data available					
Respiratory or skin sensitization: No data available					
Germ cell mutagenicity: No data available

IARC: No data available	NTP:	No data available	OSHA:	No data available	
<b>Reproductive toxicity:</b> No data available					
Routes of Exposure: Symptoms related to exposure: Skin contact may result in inflammation; char or dry skin. Eye contact may result in redness Potential Health Effects: Skin and eye contact may result in irritation.	acterized by itching		ccasionally blistering. Ski		
Target organ(s):					
12. ECOLOGICAL INFORMATION					
Ecotoxicity Fish: Crustacea:	96h LC50:2.8 mg/L (Oryzias latipes) 14d NOEC:0.75 mg/L (Oryzias latipes) 48h EC50:4.6 mg/L (Daphnia magna)				
Algae:	21h NOEC:0.29 mg/L (Daphnia magna) 72h EC50:5.3 mg/L (Selenastrum capricornutum) 72h NOEC:0.81 mg/L (Selenastrum capricornutum)				
Persistence and degradability: Bioaccumulative potential (BCF): Mobillity in soil: Partition coefficient: n-octanol/water (log Pow) Soil adsorption (Koc): Henry's Law: constant (PaM <sup>3</sup> /mol)	88 % (by BOD), 10 No data available No data available 4.2 - 4.8 No data available 111	00 % (by TOC)			

13. DISPOSAL CONSIDERATION	IS				
Disposal of product:	Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil.				
Disposal of container:	Dispose of as unused product. Do not re-use empty containers.				
Other considerations:	Observe all federal, state and local regulations when disposing of the substance.				
14. TRANSPORT INFORMATION					
DOT (US)	Non-hazardous for transportation.				
ΙΑΤΑ	Non-hazardous for transportation.				

Non-hazardous for transportation.

### 15. REGULATORY INFORMATION

IMDG

## 16. OTHER INFORMATION

Revision date: 11/10/2015 **Revision number: 4** 

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
