

Revision number: 2 Revision date: 10/06/2014

1. IDENTIFICATION

Product name: Product code: Hydroxychloroquine Sulfate H1306

TCI AMERICA

SAFETY DATA SHEET

Product use: Restrictions on use:

Company: TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987

+1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Acute Toxicity - Oral [Category 4] Eye Damage/Irritation [Category 2A]

Signal word:

Warning!

Hazard Statement(s):

Causes serious eye irritation Harmful if swallowed

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Do not eat, drink or smoke when using this product. Wash hands and face thoroughly after handling. Wear eye and face protection. If swallowed: Immediately call a poison center or doctor. Rinse mouth. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. None Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture:

3. COMPOSITION/INFORMATION		
Synonyms:	7-Chloro-4-[4-[N-ethyl-N-(2-hydroxyethyl)amino]-1-methylbutylamino]quinoline Su quinolyl)-N1-ethyl-N1-(2-hydroxyethyl)-1,4-pentanediamine Sulfate	llfate , N⁴-(7-Chloro-4-
4. FIRST-AID MEASURES		
Inhalation:	Call a poison center or doctor if you feel unwell. Move victim to fresh air. Give art is not breathing. Administer oxygen if breathing is difficult. Keep victim warm and symptomatically and supportively. Ensure that medical personnel are aware of th take precautions to protect themselves.	quiet. Treat
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and wash contaminated Remove and isolate contaminated clothing and shoes. In case of contact with sul flush skin with running water for at least 20 minutes. Treat symptomatically and s medical personnel are aware of the material(s) involved and take precautions to	bstance, immediately upportively. Ensure that
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eye material may irritate or burn eyes. Call emergency medical service. Move victim t remove any contact lenses. Keep victim warm and quiet. Treat symptomatically a exposure to substance may be delayed. Ensure that medical personnel are awar involved and take precautions to protect themselves.	elids open. Contact with o fresh air. Check for an and supportively. Effects
Ingestion:	Harmful if swallowed. Do not induce vomiting with out medical advice. If swallowed immediately and show the container or label. Do not use mouth-to-mouth method substance; give artificial respiration with the aid of a pocket mask equipped with a proper respiratory medical device. Loosen tight clothing such as a collar, tie, belt vomits place them in the recovery position so that vomit will not reenter the moutl Keep victim warm and quiet. Treat symptomatically and supportively. Ensure that aware of the material(s) involved and take precautions to protect themselves.	I if victim ingested the a one-way valve or othe or waistband. If a perso h and throat. Rinse mou
Symptoms/effects:		
Acute: Delayed:	Redness. No data available	
Immediate medical attention:	WARNING: It might be hazardous to the person providing aid to give mouth-to-m the inhaled material is harmful. If breathing has stopped, perform artificial respira treatment according to the nature of the injury. Ensure that medical personnel are involved and take precautions to protect themselves.	tion. Use first aid
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, CO_2 , sand, earth, water spray or regular foam Consult with local finattempting large scale fire fighting operations.	re authorities before
Specific hazards arising from the che Hazardous combustion products: Other specific hazards:	nical These products include: Carbon oxides Nitrogen oxides Halogenated compounds WARNING: Highly toxic HCI gas is produced during combustion.	s Silicates
heated. Move containers from fire area i Special protective equipment for fire - Wear positive pressure self-contained bi		protection in fire situatio
6. ACCIDENTAL RELEASE MEAS	URES	
Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and upwind or damaged containers or spilled material unless wearing appropriate protective clo unnecessary personnel to move away. Stop leak if you can do it without risk. Ens Isolate the hazard area and deny entry to unnecessary and unprotected personnel	thing (Section 8). Warn sure adequate ventilatio el.
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full length face shield) respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. We (nitrile)	

Emergency procedures:

(nitrile).
 Prevent dust cloud. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

6. ACCIDENTAL RELEASE MEASURES

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material. **Environmental precautions:**

Keep away from living quarters. Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Do not ingest. Avoid contact with skin and eyes. Good general ventilatic should be sufficient to control airborne levels. Keep container dry. Handle and open container with care.
	Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke Keep away from sources of ignition.
Conditions for safe storage:	Keep only in the original container in a cool well-ventilated place. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Store away from oxidizing agents

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment	
Respiratory protection:	Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Nitrile gloves.
Eye protection:	Safety glasses.
Skin and body protection:	Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid Crystal - Powder White - Slightly pale yellow No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	No data available No data available No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available
Flash point: Flammability (solid, gas):	No data available No data available	Autoignition temperature: Flammability or explosive limits: Lower: No data ava Upper: No data ava	ilable

Solubility(ies):

10. STABILITY AND REACTIVITY

Reactivity: Chemical Stability: Possibility of Hazardous Reactions: Conditions to avoid: Incompatible materials: Hazardous Decomposition Products: Not Available. Stable under recommended storage conditions. (See Section 7) No hazardous reactivity has been reported. Avoid excessive heat and light. Strong oxidizing agents No data available

11. TOXICOLOGICAL INFORMATION

RTECS Number: KK3342500

Acute Toxicity: orl-chd LDLo:600 mg/kg				
Skin corrosion/irritation: No data available				
Serious eye damage/irritation: No data available				
Respiratory or skin sensitization: No data available				
Germ cell mutagenicity: No data available				
Carcinogenicity:				
No data available				
IARC: No data available	NTP:	No data available	OSHA:	No data available
Reproductive toxicity: No data available				
Routes of Exposure: Inhalation, Eye contact, Ingestion, Skin contact. Symptoms related to exposure: Overexposure may result in serious illness or death. Eye contact may result in redness or pain. Potential Health Effects: Exposure may result in serious illness or death.				
Skin and eye contact may result in irritation. Target organ(s):	No data available			
12. ECOLOGICAL INFORMATION				
Ecotoxicity				
Fish: Crustacea:	No data available No data available			
Algae:	No data available			
Persistence and degradability: Bioaccumulative potential (BCF):	No data available No data available			
Mobillity in soil:	No data available			
Partition coefficient:	No data available

 No

13. DISPOSAL CONSIDERATIONS	
Disposal of product:	Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil.
Disposal of container:	Dispose of as unused product. Do not re-use empty containers.
Other considerations:	Observe all federal, state and local regulations when disposing of the substance.
14. TRANSPORT INFORMATION	

Non-hazardous for transportation.

IMDG

Non-hazardous for transportation.

Non-hazardous for transportation.

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

HMIS Classification:

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

16. OTHER INFORMATION

Revision date: 10/06/2014

Revision number: 2

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
