

Revision number: 3 Revision date: 08/18/2015

1. IDENTIFICATION

Product name: Product code: 4-Ethynyltoluene E0655

Flammable solid

Product use: Restrictions on use: For laboratory research purposes. Not for drug or household use.

TCI AMERICA

SAFETY DATA SHEET

Company: TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com	Emergency telephone number: Chemical Emergencies: TCI America (8:00am - 5:00pm) PST +1-503-286-7624 Transportation Emergencies: Chemtrec 24-Hour +1-800-424-9300 (U.S.A.) +1-703-527-3887 (International) Responsible department: TCI America Environmental Health Safety and Security +1- 503-286-7624
OSHA Haz Com: CFR 1910.1200:	Skin Corrosion/Irritation [Category 2] Eye Damage/Irritation [Category 2A] Flammable Solids [Category 2]
Signal word:	Warning!
Hazard Statement(s):	Causes serious eye irritation Causes skin irritation

Pictogram(s) or Symbol(s):

 $\langle ! \rangle$

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal] Wash hands and face thoroughly after handling. Wear protective gloves. Wear eye and face protection. Keep away from heat, sparks, open flames or other hot surfaces. - No smoking. Ground or bond container and receiving equipment. Use explosion-proof electrical, ventilating, lighting, and equipment. Wear protective gloves, eye protection and face protection. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. In case of fire: Use dry chemical, CO2, sand, earth, water spray or regular foam to extinguish. None

None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture:

Substance

4-Ethynyltoluene	TCI AMERICA	Page 2 of 6
3. COMPOSITION/INFORMATION	ON INGREDIENTS	
Components:	4-Ethynyltoluene	
Percent:	>98.0%(GC)	
CAS Number:	766-97-2	
Molecular Weight:	116.16	
•		
Chemical Formula: Synonyms:	C₀H₀ 1-Ethynyl-4-methylbenzene , p-Tolylacetylene	
4. FIRST-AID MEASURES		
Inhalation:	Call emergency medical service. Move victim to fresh air. Give a Administer oxygen if breathing is difficult. Keep victim warm and supportively. Ensure that medical personnel are aware of the ma protect themselves.	I quiet. Treat symptomatically and
Skin contact:	Call a poison center or doctor if you feel unwell. Remove and we case of contact with substance, immediately flush skin with runn symptomatically and supportively. Ensure that medical personne take precautions to protect themselves.	ing water for at least 20 minutes. Treat
Eye contact:	IMMEDIATELY flush eyes with running water for at least 15 mini material may irritate or burn eyes. Call emergency medical servi- remove any contact lenses. Keep victim warm and quiet. Treat s exposure to substance may be delayed. Ensure that medical per involved and take precautions to protect themselves.	ce. Move victim to fresh air. Check for and symptomatically and supportively. Effects of
Ingestion:	Do not induce vomiting with out medical advice. If swallowed, see the container or label. Do not use mouth-to-mouth method if vict respiration with the aid of a pocket mask equipped with a one-way medical device. Loosen tight clothing such as a collar, tie, belt o in the recovery position so that vomit will not reenter the mouth a and quiet. Treat symptomatically and supportively. Ensure that n material(s) involved and take precautions to protect themselves.	im ingested the substance; give artificial ay valve or other proper respiratory r waistband. If a person vomits place them and throat. Rinse mouth. Keep victim warm nedical personnel are aware of the
Symptoms/effects:		
Acute: Delayed:	Redness. No data available	
Immediate medical attention:	If breathing has stopped, perform artificial respiration. Use first a injury. Ensure that medical personnel are aware of the material(sthemselves.	
5. FIRE-FIGHTING MEASURES		
Suitable extinguishing media:	Dry chemical, CO_2 , sand, earth, water spray or regular foam Coattempting large scale fire fighting operations.	nsult with local fire authorities before
Specific hazards arising from the cher Hazardous combustion products: Other specific hazards:	nical These products include: Carbon oxides Closed containers may explode from heat of a fire.	
extinguished. Runoff to sewer may create without risk.	nt streams. Dike fire-control water for later disposal; do not scatter the fire or explosion hazard. Containers may explode when heated. Mov	
	ghters: eathing apparatus (SCBA). Structural fire fighters' protective clothing ations. Wear chemical protective clothing which is specifically recomn	

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:	Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Use spark- proof tools and explosion-proof equipment. Remove all sources of ignition. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation.
Personal protective equipment:	Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).

Emergency procedures:

Prevent dust cloud. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in the immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). All equipment used when handling the product must be grounded. Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material.

Environmental precautions:

Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

Precautions for safe handling:	Avoid inhalation of vapor or mist. Avoid contact with skin and eyes. Avoid mechanical shock and friction.
	Avoid formation of dust and aerosols. Keep away from heat and sources of ignition. Use explosion-proof equipment. Use only non-sparking hand tool when handling this product. Ground all equipment containing
	material. Take measures to prevent build up of electrostatic charge. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep
	away from sources of ignition.
Conditions for safe storage:	Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition. Store and use away from heat, sparks, open flame, or any other ignition source. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods.
Storage incompatibilities:	Combustible substances, Store away from oxidizing agents

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits: No data available

Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

Personal protective equipment

Respiratory protection:Dust respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.Hand protection:Wear protective gloves.Eye protection:Safety glasses.Skin and body protection:Lab coat.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state (20°C): Form: Color: Odor: Odor threshold:	Solid No data available No data available No data available No data available		
Melting point/freezing point: Boiling point/range: Decomposition temperature: Relative density: Kinematic Viscosity:	23°C (Freezing point) (73°F) 168°C (334°F) No data available No data available No data available No data available	pH: Vapor pressure: Vapor density: Dynamic Viscosity:	No data available No data available No data available No data available
Partition coefficient: n-octanol/water (log Pow)	No data available	Evaporation rate: (Butyl Acetate = 1)	No data available

13. DISPOSAL CO	DNSIDERATIONS				
Disposal of product:		Recycle to process if possible. It is the generator's responsibility to comply with Federal, State and Local rules and regulations. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. This section is intended to provide assistance but does not replace these laws, nor does compliance in accordance with this section ensure regulatory compliance according to the law. US EPA guidelines for Identification and Listing of Hazardous Waste are listed in 40 CFR Parts 261. The product should not be allowed to enter the environment, drains, water ways, or the soil.			
Disposal of container:Dispose of as unused product. Do not re-use empty containers.Other considerations:Observe all federal, state and local regulations when disposing of the substance.

15. REGULATORY INFORMATION

Toxic Substance Control Act (TSCA 8b.):

This product is NOT on the EPA Toxic Substances Control Act (TSCA) inventory. The following notices are required by 40 CFR 720.36 (C) for those products not on the inventory list:

(i) These products are supplied solely for use in research and development by or under the supervision of a technically qualified individual as defined in 40 CFR 720.0 et sec.

(ii) The health risks of these products have not been fully determined. Any information that is or becomes available will be supplied on a SDS sheet.

16. OTHER INFORMATION

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective gogles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
