

### Revision number: 4 Revision date: 10/17/2016

## 1. IDENTIFICATION

Product name: Product code: 1,2-Diamino-2-methylpropane D2102

For laboratory research purposes.

Not for drug or household use.

**TCI AMERICA** 

SAFETY DATA SHEET

#### Product use: Restrictions on use:

Company: TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

## 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200:

Eye Damage/Irritation [Category 1] Flammable Liquids [Category 3] Skin Corrosion/Irritation [Category 1B]

Signal word:

Danger!

Hazard Statement(s):

Causes serious eye damage Causes severe skin burns and eye damage Flammable liquid and vapor

Pictogram(s) or Symbol(s):

Precautionary Statement(s): [Prevention]

[Response]

[Storage] [Disposal]

#### Emergency telephone number: Chemical Emergencies: TCI America (8:00am - 5:00pm) PST +1-503-286-7624 Transportation Emergencies: Chemtrec 24-Hour +1-800-424-9300 (U.S.A.) +1-703-527-3887 (International) Responsible department: TCI America Environmental Health Safety and Security +1- 503-286-7624

contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center or doctor. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. In case of fire: Use dry chemical, CO2, water spray or alcohol-resistant foam to extinguish. Store locked up. Store in a well-ventilated place. Keep cool.

If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all

static discharge. Wear protective gloves, eye protection and face protection.

Do not breathe dusts or mists. Use only outdoors or in a well-ventilated area. Wear protective gloves,

protective clothing, eye protection and face protection. Wear eye protection. Wear face protection (full length face shield). Keep away from heat, sparks, open flames or other hot surfaces. - No smoking. Keep container tightly closed. Ground or bond container and receiving equipment. Use explosion-proof electrical, ventilating, lighting, and equipment. Use only non-sparking tools. Take precautionary measures against

Dispose of contents and container in accordance with US EPA guidelines for the classification and determination of hazardous waste listed in 40 CFR 261.3. (See Section 13)

**TCI AMERICA** 

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

nediamine boison center or doctor. Effects of exposure (inhalation) to substance may be delayed. In air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is in warm and quiet. Treat symptomatically and supportively. Ensure that medical e of the material(s) involved and take precautions to protect themselves. Immediate medical attention is required. Immediately call a poison center or doctor. contaminated clothing before re-use. Remove and isolate contaminated clothing and ontact with substance, immediately flush skin with running water for at least 20 minutes. ally and supportively. Ensure that medical personnel are aware of the material(s)
nediamine poison center or doctor. Effects of exposure (inhalation) to substance may be delayed. In air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is In warm and quiet. Treat symptomatically and supportively. Ensure that medical e of the material(s) involved and take precautions to protect themselves. Inmediate medical attention is required. Immediately call a poison center or doctor. contaminated clothing before re-use. Remove and isolate contaminated clothing and bontact with substance, immediately flush skin with running water for at least 20 minutes.
nediamine poison center or doctor. Effects of exposure (inhalation) to substance may be delayed. In air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is In warm and quiet. Treat symptomatically and supportively. Ensure that medical e of the material(s) involved and take precautions to protect themselves. Inmediate medical attention is required. Immediately call a poison center or doctor. contaminated clothing before re-use. Remove and isolate contaminated clothing and bontact with substance, immediately flush skin with running water for at least 20 minutes.
poison center or doctor. Effects of exposure (inhalation) to substance may be delayed. In air. Give artificial respiration if victim is not breathing. Remove and isolate contaminated clothing and pontact with substance, immediately flush skin with running water for at least 20 minutes.
n air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is n warm and quiet. Treat symptomatically and supportively. Ensure that medical e of the material(s) involved and take precautions to protect themselves. nmediate medical attention is required. Immediately call a poison center or doctor. contaminated clothing before re-use. Remove and isolate contaminated clothing and ontact with substance, immediately flush skin with running water for at least 20 minutes.
n air. Give artificial respiration if victim is not breathing. Administer oxygen if breathing is n warm and quiet. Treat symptomatically and supportively. Ensure that medical e of the material(s) involved and take precautions to protect themselves. nmediate medical attention is required. Immediately call a poison center or doctor. contaminated clothing before re-use. Remove and isolate contaminated clothing and ontact with substance, immediately flush skin with running water for at least 20 minutes.
nmediate medical attention is required. Immediately call a poison center or doctor. contaminated clothing before re-use. Remove and isolate contaminated clothing and ontact with substance, immediately flush skin with running water for at least 20 minutes.
recautions to protect themselves.
h eyes with running water for at least 15 minutes, keeping eyelids open. Eye contact tance may cause severe injury, burns, or death. Call emergency medical service. Move Check for and remove any contact lenses. Keep victim warm and quiet. Treat d supportively. Effects of exposure to substance may be delayed. Ensure that medical e of the material(s) involved and take precautions to protect themselves.
ting with out medical advice. Call a physician or Poison Control Center immediately. Do nouth method if victim ingested the substance; give artificial respiration with the aid of a bed with a one-way valve or other proper respiratory medical device. Loosen tight collar, tie, belt or waistband. If a person vomits place them in the recovery position so beenter the mouth and throat. Rinse mouth. Keep victim warm and quiet. Treat d supportively. Ensure that medical personnel are aware of the material(s) involved and protect themselves.
t be hazardous to the person providing aid to give mouth-to-mouth respiration, because I is corrosive. For severe burns, immediate medical attention is required. If breathing m artificial respiration. Use first aid treatment according to the nature of the injury. I personnel are aware of the material(s) involved and take precautions to protect
or water spray. Consult with local fire authorities before attempting large scale fire
lude: Carbon oxides Nitrogen oxides

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:

Avoid contact with skin, eyes, and clothing. Keep people away from and upwind of spill/leak. Use sparkproof tools and explosion-proof equipment. Remove all sources of ignition. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing (Section 8). Warn unnecessary personnel to move away. Stop leak if you can do it without risk. Ensure adequate ventilation. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

6. ACCIDENTAL RELEASE MEAS	SURES
Personal protective equipment:	Wear eye protection (splash goggles) and face protection (full length face shield). Lab coat. Vapor respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent. Wear protective gloves (nitrile).
Emergency procedures:	Isolate area until gas has dispersed. In case of a spill and/or a leak, always shut off any sources of ignition, ventilate the area, and excercise caution. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Warn personnel to move away. Prevent entry into sewers, basements or confined areas; dike if needed.

### Methods and materials for containment and cleaning up:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). All equipment used when handling the product must be grounded. Stop leak if without risk. Ventilate the area. Absorb with an inert material and put the spilled material in an appropriate waste disposal container. Use clean non-sparking tools to collect absorbed material.

## **Environmental precautions:**

Prevent further leakage or spillage if safe to do so. Water runoff can cause environmental damage. Prevent entry into sewers, basements or confined areas; dike if needed.

7. HANDLING AND STORAGE	
Precautions for safe handling:	Do NOT breath gas, fumes, vapor, or spray. Manipulate under an adequate fume hood. Avoid contact with skin and eyes. Keep away from heat and sources of ignition. Use explosion-proof equipment. Use only non-sparking hand tool when handling this product. Ground all equipment containing material. Take measures to prevent build up of electrostatic charge. Good general ventilation should be sufficient to control airborne levels. Keep container dry. Handle and open container with care. Wear suitable protective clothing, gloves and eye/face protection. When using do not eat, drink, or smoke. Keep away from sources of ignition.
Conditions for safe storage:	Keep containers tightly closed in a cool, well-ventilated place. Keep away from sources of ignition. Store and use away from heat, sparks, open flame, or any other ignition source. Store locked up. Keep away from incompatibles. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Avoid prolonged storage periods. Store under inert gas (e.g. Argon).
Storage incompatibilities:	Acids, Bases, Store away from oxidizing agents

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits:

No data available

#### Appropriate engineering controls:

Good general ventilation should be sufficient to control airborne levels. Ventilation is normally required when handling or using this product. Eyewash fountains should be provided in areas where there is any possibility that workers could be exposed to the substance. Follow safe industrial engineering/laboratory practices when handling any chemical.

#### Personal protective equipment

Respiratory protection:	Vapor respirator. Be sure to use a MSHA/NIOSH approved respirator or equivalent.
Hand protection:	Wear protective gloves.
Eye protection:	Splash goggles.
Skin and body protection:	Lab coat.

### 16. OTHER INFORMATION

#### Revision date: 10/17/2016 Revision number: 4

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
